HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed scalable backend **microservices in Java 11/17 and Spring Boot** for high-traffic enterprise systems, contributing to a **25% reduction in system response time** across key service endpoints.
- Built and maintained **RESTful APIs** enabling seamless integration between internal applications and third-party systems, ensuring reliable, secure, and auditable data exchange across distributed services.
- Led query optimisation initiatives across **PostgreSQL, MySQL, and MongoDB**, implementing targeted indexing strategies and execution plan analysis, improving data processing efficiency by **40%**.
- Implemented **Spring Security and OAuth2** authentication patterns for API security, hardening service-to-service communication in line with enterprise security standards.
- Collaborated with cross-functional teams including QA engineers, product owners, and architects to deliver backend features in an **Agile/Scrum** environment with two-week sprint cycles.
- Supported application deployments on **AWS (EC2, S3, CloudWatch)** using Docker and Kubernetes, contributing to a **35% reduction in system downtime** through proactive monitoring.
- Drove **CI/CD pipeline improvements** using Jenkins and Git, reducing deployment lead time by 30% through automated build, test, and release workflows.
- Wrote comprehensive unit and integration tests using **JUnit and Mockito**, achieving over 80% code coverage and catching regression defects before production deployments.

SKILLS

Technologies – Spring Boot, Microservices architecture, REST APIs, and backend service design.

Programming Languages – Proficient in Java 11/17, Python, SQL, and Bash scripting.

Databases – PostgreSQL, MySQL, and MongoDB; query optimisation, indexing, and performance tuning.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, and CI/CD pipeline management.

Frameworks & APIs – Spring Boot, Spring Cloud, Spring Data JPA, Spring Security, OAuth2, and API gateway.

Development Practices – Agile/Scrum, Git, automated testing with JUnit and Mockito, code reviews, TDD.

Tools & IDEs – IntelliJ IDEA, Eclipse, Postman, Jenkins, Visual Studio Code.

PROJECTS

Customer Account Management API – Backend Development (HCL Technologies)

- Designed and implemented RESTful API endpoints in Java and Spring Boot for customer account operations including profile updates, JWT-based authentication, and transaction history retrieval.
- Implemented input validation, exception handling, and standardised response structures across all endpoints, reducing API error rates by 20% and improving consistency for consuming teams.
- Wrote comprehensive unit and integration tests using JUnit and Mockito, achieving over 80% code coverage and identifying edge-case defects before production release.

Notification & Alerting Microservice (HCL Technologies)

- Built a standalone Spring Boot microservice for sending email and in-app notifications triggered by downstream service events via REST API, decoupling notification logic from core business services.
- Implemented retry logic and dead-letter queue handling for failed dispatches, ensuring no critical alerts were silently dropped under transient network failures.
- Containerised the service with Docker and validated end-to-end behaviour in a staging Kubernetes environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
