PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and developed **RESTful APIs** and microservices using **Java Spring Boot**, implementing feature work and bug fixes for enterprise applications serving thousands of concurrent users across distributed cloud environments.
- Led **end-to-end reliability engineering** for production systems, reducing P1 incident response time by **30%** through proactive monitoring with **Splunk, CloudWatch, and Dynatrace**; maintained **99.5% SLA** compliance across mission-critical services.
- Built scalable data pipelines and **ETL workflows** using **Python** and **SQL**, automating scheduled reporting and data validation across **PostgreSQL, MySQL, and Oracle** databases; improved data processing efficiency by **40%**.
- Optimized application performance and deployment velocity by implementing **CI/CD pipelines** in **Jenkins**, enforcing code quality standards through Git branching strategies and peer code reviews, enabling **15+ releases per sprint**.
- Deployed containerized applications using **Docker** and managed cloud infrastructure on **AWS (EC2, S3, Lambda, CloudWatch)**, demonstrating hands-on DevOps practices and continuous integration workflows.
- Collaborated cross-functionally within Agile/Scrum teams, translating product requirements into clear technical specifications and delivering high-quality, maintainable components using **Jira** and **Confluence** for transparency and knowledge sharing.

SKILLS

Backend & API Development – Java Spring Boot, RESTful APIs, REST API design, microservices architecture.

Programming Languages – Java, Python, SQL.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, production support, SLA management.

Data Engineering – ETL pipelines, Python data tools (pandas, NumPy), data validation, scheduled reporting.

Tools & Practices – Linux, shell scripting, Jira, Confluence, Agile/Scrum, code reviews.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Application Reliability & Feature Development (HCL Technologies)

- Developed new features and resolved defects in **Java Spring Boot** microservices, delivering **REST APIs** that supported millions of concurrent requests across global infrastructure.
- Implemented comprehensive monitoring and alerting strategies using **Splunk and CloudWatch**, enabling rapid detection and resolution of production incidents; reduced mean time to resolution (MTTR) by **35%**.
- Collaborated with cross-functional teams to translate customer feedback and CSAT metrics into technical improvements, prioritizing reliability and user experience optimization.

Automated Data Pipeline & Reporting Engine (HCL Technologies)

- Architected and deployed automated **ETL pipelines** using **Python, pandas, and NumPy**, processing millions of records daily across **PostgreSQL and Oracle** databases for real-time business intelligence.
- Optimized scheduled reporting workflows with **cron jobs** and **Linux shell scripting**, reducing manual data validation overhead by **45%** and enabling self-service analytics for stakeholders.
- Integrated data pipelines into **CI/CD infrastructure** via **Jenkins**, ensuring reliable, repeatable deployments and maintaining data quality through automated validation checkpoints.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
