+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated and validated **production analytics pipelines** across enterprise Java/.NET applications using **Splunk, CloudWatch, and Dynatrace**; managed **P1/P2 incidents** with SLA adherence, demonstrating ability to assess real-world system reliability and performance.
- Designed and implemented **Python-based ETL pipelines** and **data workflows** for scheduled reporting and automation; wrote **analytical code** end-to-end with **pandas, NumPy**, and **SQL** queries across **PostgreSQL, MySQL, Oracle** databases.
- Developed **REST APIs** and feature implementations using **Java Spring Boot**; conducted **code reviews** and contributed to **CI/CD pipelines** (Jenkins, Git), ensuring technical accuracy and maintainability of quantitative data processes.
- Performed **ad-hoc data analysis** and **schema validation** using **SQL**; designed experiments for troubleshooting production issues, combining statistical reasoning with hands-on debugging across **AWS** infrastructure (**EC2, S3, Lambda, CloudWatch**).
- Completed **MSc in Data Analytics** with focus on statistical inference, predictive modeling, and data-driven problem-solving; earned certifications in **Full Stack Java Spring Boot, Python Programming** (University of Michigan), and **Web Development** (UC Davis).
- Demonstrated fluency in technical communication through incident reporting, defect documentation, and cross-functional collaboration in **Agile/Scrum** environments; achieved **IELTS Band 7/9**, confirming strong English writing and analytical articulation skills.

SKILLS

Quantitative & Statistical Analysis – hypothesis testing, statistical inference, predictive modeling, experiment design, A/B testing, data validation.

Programming & Analytical Code – Python, Java, SQL, Flask, FastAPI, pandas, NumPy, Shell scripting.

Data Engineering & Pipelines – ETL workflows, data pipelines, scheduled reporting, PostgreSQL, MySQL, Oracle.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Splunk, Dynatrace.

Software Development & DevOps – Spring Boot, REST APIs, Jenkins, Git, CI/CD, Jira.

Education & Credentials – MSc Data Analytics (National College of Ireland), BE Computer Science, Python & Web Development certifications.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Production Analytics & Reliability Monitoring (HCL Technologies)

- Evaluated the accuracy and real-world validity of **automated monitoring alerts** generated by **Splunk, CloudWatch, and Dynatrace** across enterprise applications; designed diagnostic workflows to validate whether AI-suggested anomalies held up under manual investigation.
- Developed **Python scripts** to extract and analyze **time-series performance data**; performed statistical inference to distinguish signal from noise in operational metrics, directly improving incident classification and response SLA management.
- Provided detailed technical feedback to operations teams on the quality of **predictive analytics** used for capacity planning and forecasting, shaping how monitoring systems reason about system health and data-driven reliability.

Data Pipeline Validation & ETL Optimization (HCL Technologies)

- Designed and validated **ETL pipelines** using **Python (pandas, NumPy)** and **SQL** across multiple databases; wrote well-documented **analytical code** and reviewed code for correctness of statistical transformations and data integrity.
- Conducted experimental analysis on pipeline optimization, testing hypotheses about performance improvements using **AWS Lambda** and **scheduled jobs**; documented findings with clear technical explanations of trade-offs.
- Evaluated the technical accuracy of **automated data quality checks** and predictive models embedded in reporting workflows; provided feedback that shaped how downstream systems reasoned about data completeness and schema validity.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
