

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated production system reliability and data quality across enterprise **Java** and **.NET** applications using **Splunk**, **CloudWatch**, and **Dynatrace**; managed SLA compliance and P1/P2 incident response with focus on root-cause analysis and system validation.
- Designed and implemented **Python**-based **data pipelines** and **ETL workflows** for analytical reporting, including **pandas** and **NumPy** for data transformation and validation across multiple business domains.
- Performed rigorous **statistical analysis** and data-driven validation using **SQL (PostgreSQL, MySQL, Oracle)** to assess data integrity, identify anomalies, and support evidence-based decision-making on production systems.
- Wrote and reviewed **analytical code** in **Python (Flask, FastAPI)** and **Java Spring Boot** for API development; conducted code reviews emphasizing clarity, correctness, and adherence to technical standards.
- Deployed and monitored models and analytics workloads on **AWS (EC2, S3, Lambda, CloudWatch)**; containerized applications using **Docker** and orchestrated deployments via **Jenkins CI/CD pipelines**.
- Completed **MSc in Data Analytics** with applied experience in statistical methods, predictive modeling, and quantitative problem-solving; demonstrated fluency in technical writing through coursework and professional documentation.

SKILLS

Quantitative & Statistical Analysis – statistical inference, hypothesis testing, predictive modeling, experiment design, data validation.

Programming & Code Review – Python, Java, SQL, Flask, FastAPI, Spring Boot, analytical code documentation.

Data Engineering & Pipelines – ETL workflows, pandas, NumPy, data transformation, PostgreSQL, MySQL, Oracle.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Monitoring & Reliability Analysis – Splunk, Dynatrace, CloudWatch, SLA management, incident analysis.

Qualifications – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Band 7, Full Stack Java Spring Boot & Angular Certification.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Production Monitoring & Data Quality Framework (HCL Technologies)

- Architected and maintained monitoring dashboards using **Splunk** and **Dynatrace** to track application performance, error rates, and data pipeline health across distributed **Java** and **.NET** systems.
- Designed **Python**-based validation scripts using **pandas** and **SQL** to detect data anomalies and validate analytical outputs; reduced false positive incidents by implementing rigorous statistical checks.
- Documented technical findings and provided evidence-based recommendations for system improvements; collaborated with cross-functional teams to interpret results and validate production behavior.

Automated Data Pipeline & Reporting System (HCL Technologies)

- Built end-to-end **ETL pipelines** in **Python** using **pandas** and **NumPy** to extract, transform, and load data from multiple sources; implemented scheduled jobs via **cron** and **Jenkins** for automated reporting.
- Optimized **SQL** queries across **PostgreSQL**, **MySQL**, and **Oracle** databases; analyzed query performance and validated data integrity across millions of records.
- Deployed analytics infrastructure on **AWS (Lambda, S3, CloudWatch)** with **Docker** containerization; wrote clear technical documentation for model reproducibility and code maintainability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
