PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and developed **REST APIs** and backend services using **Java Spring Boot**, writing clear, high-quality code with detailed documentation for cross-functional teams and AI training datasets.
- Solved diverse coding problems and evaluated **code quality** across multiple languages including **Python, Java, and SQL**, providing structured feedback to improve system reliability and performance.
- Built **data pipelines** and **ETL workflows** using **Python** with **pandas** and **NumPy** for automated reporting and data validation, processing enterprise-scale datasets with **PostgreSQL, MySQL, and Oracle**.
- Engineered reliability and incident response for production systems using **Splunk, CloudWatch, and Dynatrace**, maintaining **SLA compliance** and resolving **P1/P2 incidents** with rapid diagnosis and remediation.
- Containerized applications using **Docker** and orchestrated deployments via **Jenkins CI/CD pipelines**, implementing **Git** branching strategies and conducting code reviews to maintain code quality standards.
- Demonstrated proficiency in **Linux** system administration—log analysis, shell scripting, and cron scheduling—alongside **AWS cloud services (EC2, S3, Lambda)** for scalable infrastructure and automation.

SKILLS

Languages & Frameworks – Java, Python, SQL, Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux.

Databases – PostgreSQL, MySQL, Oracle, SQL query optimization, schema design.

Data Engineering – ETL pipelines, pandas, NumPy, data validation, automated reporting.

Monitoring & Reliability – Splunk, Dynatrace, incident response, SLA management.

Additional Skills – Jira, Confluence, Agile/Scrum, technical writing, code review, React, Angular.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Application Production Support & Reliability Engineering (HCL Technologies)

- Managed production support and monitoring for **enterprise Java and .NET applications**, utilizing **Splunk, CloudWatch, and Dynatrace** to maintain **SLA compliance** and resolve critical incidents.
- Responded to and resolved **P1/P2 incidents** through root cause analysis, log examination, and rapid remediation, reducing mean time to resolution (MTTR) and improving system uptime.

- Developed **Python automation scripts** for log analysis, alerting, and operational reporting, reducing manual troubleshooting overhead and improving incident detection speed.

Data Pipeline & ETL Development (HCL Technologies)

- Designed and implemented **Python-based ETL pipelines** using **pandas** and **NumPy** for data extraction, transformation, and loading across **PostgreSQL, MySQL, and Oracle** databases.
- Built **REST APIs** with **Java Spring Boot** to expose data pipeline functionality, enabling seamless integration with downstream applications and analytics platforms.
- Created automated scheduled reporting jobs using **cron and shell scripting** on **Linux** systems, delivering validated datasets to stakeholders with detailed documentation and code clarity for maintainability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
