+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India**

**09/2021 – 01/2025 (3.5 Years)**

- Performed **production support and reliability engineering** for enterprise Java/.NET applications across **AWS** infrastructure, utilizing **Splunk, CloudWatch, and Dynatrace** for SLA management and P1/P2 incident response in regulated, mission-critical environments
- Developed and maintained **Python automation scripts** for data collection, ETL pipelines, and scheduled reporting; designed data validation workflows to ensure accuracy and compliance with quality standards
- Executed **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases for ad-hoc data analysis, schema modifications, and quality investigations; supported cross-functional teams with data-driven insights for process improvements
- Supported quality system documentation and process audits by maintaining **Git** version control, **Jira** ticketing workflows, and **CI/CD pipelines via Jenkins**; ensured traceability and compliance with internal procedures
- Demonstrated strong organizational and communication skills in **Agile/Scrum environments**, collaborating with senior engineers and stakeholders to assess nonconforming issues, implement corrective actions, and drive continuous improvement initiatives
- Performed **Linux**-based log analysis, shell scripting, and system monitoring to identify root causes of production issues; contributed to knowledge base documentation and junior staff training on troubleshooting methodologies

## SKILLS

**Quality & Compliance Systems** – GMP principles, quality investigations, process documentation, compliance auditing, CAPA methodology.

**Data Engineering & Analysis** – Python, SQL, ETL pipelines, data validation, pandas, NumPy, reporting automation.

**Manufacturing & Operations Support** – production monitoring, SLA management, incident response, cross-functional collaboration.

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Splunk, Dynatrace.

**Development & Tools** – Java Spring Boot, REST APIs, Git, Jenkins, Jira, Confluence, Microsoft Office.

**Technical Education** – MSc Data Analytics, Bachelor of Engineering Computer Science, certifications in Full Stack Java/Angular and Python Programming.

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of  
Ireland, Dublin**

**02/2026**

**BACHELOR OF ENGINEERING in Computer Science – SNS College  
of Technology, Coimbatore, India**

**01/2021**

## PROJECTS

### **Enterprise Application Reliability & Data Pipeline Support (HCL Technologies)**

- Supported production monitoring and incident management for large-scale Java/.NET applications, reducing mean-time-to-resolution by proactively analyzing **Splunk and CloudWatch logs** to identify anomalies and systemic issues
- Designed and deployed **Python-based ETL automation** to collect manufacturing and operational data from multiple sources; implemented data validation checks to ensure quality and completeness before downstream processing
- Collaborated with cross-functional teams (Engineering, Operations, Quality) to investigate and resolve nonconforming events; documented findings in **Jira** and maintained audit trails for regulatory compliance

### **Quality System Documentation & CI/CD Pipeline Enhancement (HCL Technologies)**

- Maintained and updated quality procedures and technical documentation in **Confluence**, ensuring version control via **Git** and alignment with regulatory standards
- Supported **Jenkins CI/CD pipeline** optimization and code review workflows to improve deployment reliability and traceability across development and production environments
- Performed routine audits of deployment processes and system configurations using **Linux shell scripting** and automated monitoring via **CloudWatch**; identified gaps and recommended corrective actions aligned with quality objectives

## **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
