+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Designed and developed **Java Spring Boot** microservices and **REST APIs** for enterprise applications, contributing to features, bug fixes, and performance optimizations across multiple production systems.
- Implemented **CI/CD pipelines** using **Jenkins** and **Git** for automated code deployment to development and production environments, enforcing code quality through peer reviews and branching strategies.
- Performed reliability engineering on high-scale applications using **Splunk**, **CloudWatch**, and **Dynatrace** for monitoring and alerting; managed **P1/P2 incidents** with **SLA compliance** and root-cause analysis.
- Developed **Python** automation scripts and **ETL pipelines** for data validation and scheduled reporting; optimized database queries across **PostgreSQL**, **MySQL**, and **Oracle** for improved application performance.
- Leveraged **AWS cloud technologies** (**EC2**, **S3**, **Lambda**, **CloudWatch**) and **Docker** containerization to build scalable, operationally excellent backend systems with infrastructure-as-code principles.
- Participated in **Agile/Scrum ceremonies**, sprint planning, and estimation; documented code and processes in **Confluence** to enable rapid onboarding and knowledge sharing across engineering teams.

SKILLS

Backend & Core Languages – Java, Spring Boot, Python, REST APIs, Microservices.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD, Git.

Databases & Data Engineering – PostgreSQL, MySQL, Oracle, SQL, ETL, pandas, NumPy.

Monitoring & Performance – Splunk, Dynatrace, CloudWatch, SLA Management, Incident Response.

Frontend & UI – Angular, React, HTML, CSS, JavaScript.

Tools & Practices – Jira, Confluence, Agile/Scrum, Linux, Shell Scripting, Atlassian Tooling.

Frameworks & Libraries – Flask, FastAPI, NumPy, pandas.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Reliability & Performance Optimization (HCL Technologies)

- Monitored and maintained **Java/.NET enterprise applications** using **Splunk**, **Dynatrace**, and **CloudWatch**, achieving consistent **SLA compliance** through proactive alerting and rapid **P1/P2 incident response**.
- Diagnosed and resolved application performance bottlenecks by analyzing logs, metrics, and database query plans; implemented fixes that reduced average response time by **15–20%**.

- Automated operational tasks using **Python** scripts and **Linux shell scripting** (cron jobs), reducing manual toil and improving incident triage speed.

Microservices Development & Cloud Infrastructure (HCL Technologies)

- Developed new features and maintained existing **Spring Boot microservices** and **REST APIs**, with unit testing and deployment to development/staging environments via **Jenkins CI/CD pipelines**.
- Deployed containerized applications using **Docker** and **AWS services (EC2, S3, Lambda)**, implementing infrastructure-as-code practices for scalability and operational excellence.
- Collaborated across teams to integrate backend services with internal systems; participated in architecture and technology roadmap discussions to align code with business requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
