PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **first and second-level technical support** across enterprise Java/.NET applications, managing **P1/P2 incidents** and maintaining **SLA compliance** through monitoring platforms including **Splunk, CloudWatch, and Dynatrace**
- Configured and deployed **Windows environments, Docker containers**, and cloud infrastructure on **AWS (EC2, S3, Lambda)**; installed software, peripherals, and managed **Git/Jenkins CI/CD pipelines** for reliable system deployments
- Provided desktide and remote troubleshooting support via **remote desktop and SSH**, resolving user-reported issues on **Linux and Windows systems** with rapid turnaround in fast-paced production environments
- Automated routine support tasks using **Python scripting** and **shell scripting**, reducing manual incident response time and improving team efficiency through cron-based scheduled reporting and data validation workflows
- Managed device handovers and user briefing sessions for infrastructure changes; documented procedures in **Confluence** and tracked all incidents via **Jira** ticketing system across Agile sprint cycles
- Demonstrated strong English communication (IELTS Band 7/9) and cross-team collaboration, escalating complex technical issues appropriately and liaising with senior support staff and external service providers

SKILLS

Operating Systems & Endpoints – Windows OS, Linux, Docker, AWS cloud infrastructure.

Helpdesk & Support Tools – Splunk, Dynatrace, CloudWatch, Jira, Confluence, remote desktop.

Infrastructure & Scripting – Python, Shell scripting, Jenkins CI/CD, Git, cron jobs.

Databases & Data – PostgreSQL, MySQL, Oracle, SQL, ETL.

Cloud & Networking – AWS (EC2, S3, Lambda, CloudWatch), deployment, SLA management.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Production Support & Monitoring (HCL Technologies)

- Served as **first-level point of contact** for production support incidents across **1,000+ users**, logging all requests via ticketing system and providing rapid diagnosis and resolution
- Implemented **proactive monitoring** using **Splunk and Dynatrace dashboards** to detect application issues before user impact, reducing mean-time-to-resolution (MTTR) by identifying patterns and escalating systematically

- Delivered **deskside and remote support** for software installations, hardware configuration, and user training on new features; managed device onboarding and handover sessions across multiple office locations

Infrastructure Automation & Deployment Pipeline (HCL Technologies)

- Designed and maintained **Jenkins CI/CD pipelines** and **Git branching strategies** to automate application deployment, reducing deployment errors and enabling **faster incident response**
- Created **Python and shell scripts** to automate routine configuration tasks, log analysis, and data validation; scheduled recurring jobs using **cron** to minimize manual support overhead
- Deployed containerized applications using **Docker** and managed **AWS cloud resources (EC2, S3, Lambda)**, ensuring infrastructure reliability and enabling seamless scaling for production workloads

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
