

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **enterprise Java Spring Boot** REST APIs and microservices on **AWS** (EC2, S3, Lambda), demonstrating cloud-native application development principles aligned with SAP BTP's cloud-first architecture
- Led production support and incident response for mission-critical applications using **Splunk, CloudWatch, and Dynatrace**, ensuring **99.5% SLA compliance** through proactive monitoring and troubleshooting—directly transferable to SAP system stability and maintenance
- Developed **Python** automation scripts and **ETL pipelines** for data integration and reporting, processing **500K+ daily records**; experience with data flows translates to SAP OData services and integration technologies (IDocs, RFC, BAPI, REST)
- Implemented **CI/CD pipelines using Jenkins and Git**, enforced code review standards, and containerized applications with **Docker**—core practices for SAP BTP development and deployment workflows
- Performed complex **SQL** query optimization and schema management across **PostgreSQL, MySQL, and Oracle** databases; proficiency extends to data modeling and reporting requirements in SAP HANA environments
- Collaborated with cross-functional teams in Agile/Scrum ceremonies to translate business requirements into technical solutions, documented technical specifications in **Confluence**, and mentored junior engineers on best practices

SKILLS

SAP & Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Docker, cloud-native application design, REST API architecture.

Backend Development – Java, Spring Boot, Python, Flask, FastAPI, REST APIs.

Databases & Integration – PostgreSQL, MySQL, Oracle, SQL, data pipelines, ETL, OData concepts.

DevOps & Tools – Jenkins, Git, CI/CD, Linux, shell scripting, Jira, Confluence.

Monitoring & Support – Splunk, Dynatrace, production support, incident management, troubleshooting.

Core Technical Skills – System design, code reviews, documentation, problem-solving, Agile methodologies.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Modernization & Cloud Migration (HCL Technologies)

- Architected and deployed **Spring Boot microservices** on **AWS**, replacing legacy monolithic applications and reducing infrastructure costs by **30%**
- Designed **REST API integrations** with multiple enterprise systems; implemented robust error handling and data validation aligned with integration best practices required in SAP environments
- Established **Jenkins-based CI/CD pipelines** with automated testing and **Docker containerization**, enabling **50% faster deployment cycles** and reducing production incidents

Data Analytics & Business Intelligence Platform (HCL Technologies)

- Built **Python ETL pipelines** consuming data from multiple sources (APIs, databases, file systems) and loading into **Oracle/PostgreSQL**, supporting real-time dashboards and reporting
- Optimized **SQL queries** reducing report generation time by **40%**; implemented data validation and reconciliation scripts using **pandas and NumPy**
- Provided **production monitoring and support** using **Splunk** for log analysis and alerting, ensuring data pipeline SLA compliance and rapid incident resolution

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
