PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Translated complex enterprise application data into actionable insights using **Splunk, CloudWatch, and Dynatrace**, supporting P1/P2 incident response and SLA management for stakeholder-facing reliability reporting.
- Designed and automated **Python-based ETL pipelines** and scheduled reporting workflows, reducing manual data aggregation by enabling real-time insights across multiple data sources for cross-functional teams.
- Partnered with business and technical teams to deliver **ad hoc SQL analytics** on **PostgreSQL, MySQL, and Oracle** databases, uncovering trends in application performance and supporting data-driven decision-making.
- Developed workforce visibility through **Jenkins CI/CD pipelines** and **Git**-based version control, improving team transparency and enabling faster deployment cycles for feature delivery.
- Built and maintained **REST APIs** using **Java Spring Boot**, enabling seamless data integration across systems and supporting real-time reporting requirements for stakeholders.
- Demonstrated analytical curiosity by connecting insights across **AWS infrastructure (EC2, S3, Lambda, CloudWatch)** and **Docker** containerization, identifying optimization opportunities and operational risks.

SKILLS

Data Analytics & SQL – PostgreSQL, MySQL, Oracle, ad hoc querying, data validation, schema analysis.

Programming & Scripting – Python, Java, Shell scripting, SQL, pandas, NumPy.

Backend & API Development – Spring Boot, REST APIs, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Observability & Monitoring – Splunk, Dynatrace, CloudWatch, SLA management, incident response.

DevOps & Collaboration – Jenkins, Git, CI/CD pipelines, Jira, Confluence, Agile/Scrum.

Data Engineering – ETL pipelines, scheduled reporting, data pipeline automation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Observability Program (HCL Technologies)

- Served as go-to technical partner for production support teams, delivering real-time monitoring dashboards using **Splunk and Dynatrace** to track organizational health metrics and SLA compliance across mission-critical Java/.NET applications.
- Proactively identified attrition risks and performance trends by correlating application reliability data with incident patterns, enabling leadership to make data-driven decisions on team resource allocation and

infrastructure investment.

- Led data storytelling through weekly QBRs and ad hoc analytics reports, translating complex observability data into clear, compelling narratives for executive and operations leadership audiences.

Data Pipeline & Reporting Automation Initiative (HCL Technologies)

- Designed and deployed **Python-based ETL pipelines** and automated reporting workflows, extracting and consolidating workforce and operational data from disparate systems (**PostgreSQL, MySQL, Oracle**) into unified analytics datasets.
- Reduced manual reporting overhead by **40%** through scheduled **Python scripts** and cron job automation, freeing business partners to focus on strategic analysis and business partner consulting.
- Partnered closely with Business Partners and the People Leadership Team to identify data gaps, standardize metrics, and recommend solutions for improving visibility into hiring, retention, and organizational effectiveness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
