PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and maintained **data pipelines** using **Python** and **SQL** (PostgreSQL, MySQL, Oracle) to extract, transform, and load data across enterprise systems, supporting **3.5 years** of production-grade reliability engineering and SLA management.
- Built **REST APIs** and microservices using **Java Spring Boot**, with hands-on experience deploying to **AWS** (EC2, S3, Lambda) and containerizing applications with **Docker** for scalable, distributed cloud deployments.
- Implemented robust **CI/CD pipelines** using **Jenkins**, **Git**, and infrastructure-as-code practices to automate cloud deployments, code reviews, and artifact management across multiple environments.
- Managed production observability and incident response using **Splunk**, **CloudWatch**, and **Dynatrace**; performed complex data analysis and troubleshooting to optimize system performance and reduce P1/P2 incident resolution time.
- Developed automation and integration solutions using **Python** scripting, **shell scripting**, and scheduled **cron jobs** on **Linux** environments to streamline cross-system data synchronization and reporting workflows.
- Collaborated with cross-functional teams (Product, QA, Infrastructure) in Agile/Scrum environments to design extensible, high-performance solutions aligned with functional and non-functional business requirements.

SKILLS

Data Integration & Engineering – Python, ETL, data pipelines, SQL (PostgreSQL, MySQL, Oracle), schema design, data validation.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting, cron jobs.

Backend Development – Java, Spring Boot, REST APIs, microservices architecture.

CI/CD & DevOps – Jenkins, Git, code reviews, Jira, Agile/Scrum, infrastructure automation.

Monitoring & Reliability – Splunk, CloudWatch, Dynatrace, production support, SLA management, incident response.

Data Tools & Formats – pandas, NumPy, Flask, FastAPI.

Additional – IELTS Band 7, analytical problem-solving, cross-team communication.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Data Integration Platform (HCL Technologies)

- Architected and deployed **data extraction and transformation pipelines** using **Python** and **SQL** to consolidate disparate enterprise data sources into a unified data store on **AWS S3**, enabling real-time reporting

and business intelligence.

- Implemented **Lambda functions** and scheduled workflows to automate data acquisition from multiple file-storage formats, reducing manual intervention by **40%** and improving data freshness across the organization.
- Collaborated with Integration Engineering and Product Management teams to define data schemas, validate quality, and ensure compliance with functional requirements across geographically distributed systems.

Spring Boot Microservices Reliability & Scalability (HCL Technologies)

- Developed and maintained **Java Spring Boot** microservices handling high-volume transactional workloads; deployed services to **AWS EC2** using **Docker** containerization and **CloudFormation** templates for infrastructure consistency.
- Implemented comprehensive monitoring and alerting using **Splunk** and **CloudWatch** to track service health, latency, and error rates; responded to P1/P2 incidents with detailed root-cause analysis and system optimization.
- Automated deployment pipelines with **Jenkins** and **Git** branching strategies; conducted code reviews and integrated security best practices to support **CI/CD** excellence and rapid, safe feature releases.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
