PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered **enterprise-level production support** for Java/.NET applications across **AWS cloud** and hybrid environments, managing SLA compliance and responding to **P1/P2 incidents** using **Splunk, CloudWatch, and Dynatrace** monitoring platforms
- Performed **Linux system administration** and troubleshooting including shell scripting, log analysis, and cron job automation to support reliability engineering and operational stability across 50+ production services
- Developed and maintained **Python automation scripts** for data pipelines, ETL workflows, and scheduled reporting; demonstrated strong scripting capability in both **Linux Shell** and infrastructure automation contexts
- Configured and managed **CI/CD pipelines using Jenkins, Git** version control, and code review workflows; collaborated with DevOps teams on containerisation using **Docker** and deployment strategies across cloud infrastructure
- Managed **SQL databases (PostgreSQL, MySQL, Oracle)** including schema changes, data validation, and ad-hoc query optimization; demonstrated in-depth knowledge of database administration in cloud and hybrid environments
- Communicated complex technical issues and solutions to cross-functional teams (engineering, QA, sales, support); documented defects and tracked resolution in **Jira** and **Confluence** within Agile/Scrum ceremonies

SKILLS

Systems & Infrastructure – Linux administration, Windows, macOS, AWS (EC2, S3, Lambda, CloudWatch), Docker, hybrid cloud environments.

Authentication & Security – Identity access concepts, Active Directory fundamentals, LDAP, authentication protocols, shell security scripting.

Programming & Scripting – Python, Java, Shell scripting, PowerShell basics, REST API development.

Databases – PostgreSQL, MySQL, Oracle, SQL query optimization, schema management.

Monitoring & Incident Management – Splunk, Dynatrace, CloudWatch, SLA management, P1/P2 incident response, production support.

DevOps & Collaboration Tools – Jenkins, Git, Docker, Jira, Confluence, CI/CD pipelines, Agile/Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Reliability & Monitoring (HCL Technologies)

- Designed and maintained monitoring dashboards in **Splunk and Dynatrace** for real-time visibility across enterprise Java/.NET services deployed on **AWS (EC2, CloudWatch)**
- Responded to critical production incidents with **SLA-driven incident management**, performing root cause analysis and coordinating with engineering teams for rapid resolution
- Automated operational tasks using **Python scripts and Linux shell** to reduce manual intervention by enabling scheduled health checks, log aggregation, and alert escalation workflows

Infrastructure Automation & Deployment Pipeline Enhancement (HCL Technologies)

- Built and optimized **Jenkins CI/CD pipelines** leveraging **Git** branching strategies and code review gates to ensure quality and consistency across 20+ application deployments
- Containerized legacy Java Spring Boot applications using **Docker**, enabling seamless deployment across **AWS and on-premise environments** in hybrid cloud infrastructure
- Collaborated with database teams on **schema migrations and PostgreSQL/Oracle optimization**, implementing automated validation checks within deployment pipelines to prevent data integrity issues

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
