

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Managed **production support and monitoring** of enterprise applications using **Splunk, CloudWatch, and Dynatrace**, ensuring **SLA compliance** and rapid P1/P2 incident response in regulated environments with stringent uptime requirements
- Designed and executed **data validation pipelines** using **Python** and **SQL** (PostgreSQL, MySQL, Oracle) to ensure data integrity across complex datasets; performed ad-hoc queries and schema optimizations supporting business-critical operations
- Developed and maintained **REST APIs** and microservices using **Java Spring Boot**, implementing feature enhancements and bug fixes while adhering to code quality standards and peer review processes
- Implemented **CI/CD automation** via **Jenkins pipelines** and **Git** workflows, reducing manual deployment overhead and improving release consistency across development and production environments
- Established **monitoring and alerting frameworks** on **AWS** (EC2, S3, Lambda, CloudWatch) and containerized applications with **Docker**, proactively identifying deviations and triggering investigation protocols
- Demonstrated strong analytical and process improvement mindset by identifying operational bottlenecks in production support workflows and automating routine validation tasks, reducing manual effort by approximately **30%**

SKILLS

Data Analysis & Quality Control – SQL query optimization, data validation, compliance monitoring, alert/action limit investigation frameworks.

Production Monitoring & Compliance – Splunk, CloudWatch, Dynatrace, SLA management, incident response, regulatory environment oversight.

Backend Development – Java Spring Boot, REST APIs, Python, Flask, FastAPI.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, containerization.

DevOps & Process Automation – Jenkins, Git, CI/CD pipelines, Linux, shell scripting, cron jobs.

Team Collaboration & Documentation – Jira, Confluence, Agile/Scrum, defect tracking, technical reporting.

Databases – PostgreSQL, MySQL, Oracle, schema management, ETL.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Monitoring & SLA Management (HCL Technologies)

- Owned production monitoring strategy for critical Java/.NET applications, leveraging **Splunk and Dynatrace** to establish real-time visibility into system health and performance metrics
- Implemented **alert thresholds and escalation protocols** aligned with regulatory and business SLAs, reducing mean time to detection (MTTD) for critical incidents
- Conducted root cause analysis on production incidents and deviations, documenting findings and coordinating corrective action implementation with development and operations teams

Data Validation & ETL Automation Pipeline (HCL Technologies)

- Architected and deployed **Python-based ETL pipelines** using **pandas and NumPy** to validate raw materials and intermediates data against predefined quality specifications and business rules
- Designed **SQL queries** across **PostgreSQL, MySQL, and Oracle** databases to extract, transform, and load data; identified schema inconsistencies and implemented corrective measures
- Automated scheduled reporting workflows with **Linux cron jobs and shell scripting**, eliminating manual report generation and ensuring timely delivery of compliance metrics to stakeholders

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
