PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Architected and developed **RESTful APIs** using **Java Spring Boot**, delivering high-performance microservices for enterprise applications serving thousands of concurrent users; implemented request validation, error handling, and response optimization to ensure scalability and maintainability.
- Designed and optimized **relational database schemas (PostgreSQL, MySQL, Oracle)** for complex transactional systems; wrote performant SQL queries, managed schema migrations, and conducted data validation to ensure data integrity across production environments.
- Built full-stack solutions collaborating with front-end teams; developed dynamic **REST API endpoints** while contributing to responsive web applications using **Angular** and **React**, ensuring seamless integration between backend services and UI layers.
- Established and maintained **CI/CD pipelines** using **Jenkins** and **Git**; automated code builds, testing, and deployments while conducting peer code reviews to enforce quality standards and reduce production defects by **30%**.
- Implemented infrastructure-as-code and containerization solutions using **Docker** and **AWS** services (**EC2, S3, Lambda, CloudWatch**); reduced deployment time and improved system reliability through automation and monitoring best practices.
- Participated in on-call rotations and provided rapid incident response for production incidents; used **Splunk, Dynatrace, and CloudWatch** for root-cause analysis and implemented fixes to meet SLA targets, achieving **99.5% uptime** for critical services.

SKILLS

Backend & API Development – Java, Spring Boot, REST API Design, Python, Flask, FastAPI.

Frontend Technologies – React, Angular, HTML, CSS, JavaScript.

Databases – PostgreSQL, MySQL, Oracle, SQL, Schema Design, Data Modeling.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD Pipelines, Git.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch, Incident Response, SLA Management.

Data & Scripting – Python Automation, ETL, Data Pipelines, Linux, Shell Scripting, pandas, NumPy.

Methodologies & Tools – Agile/Scrum, Jira, Confluence, Code Review, Documentation.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Java Microservices Platform (HCL Technologies)

- Designed and developed **Spring Boot microservices** exposing **RESTful APIs** for core business functions; implemented comprehensive request/response handling, validation, and error management to support high-availability enterprise operations.
- Optimized **PostgreSQL** schemas and queries to reduce query execution time by **40%**; managed database migrations and ensured transactional consistency across distributed services.
- Deployed containerized services to **AWS EC2** using **Docker**; configured **CloudWatch** monitoring and alerts to track application health, reducing mean-time-to-detection (MTTD) for critical issues.

Full-Stack Application Development & Automation (HCL Technologies)

- Developed dynamic, responsive web interfaces using **Angular** and collaborated with backend teams to integrate **REST endpoints**, ensuring seamless user experiences and API contract compliance.
- Automated data pipelines and ETL workflows using **Python** scripts; deployed scheduled jobs via cron and **AWS Lambda** to process enterprise data, reducing manual operational overhead by **50%**.
- Built and maintained **Jenkins CI/CD pipelines** using **Git** workflows; implemented automated testing and deployment stages, accelerating release cycles from weekly to daily deployments while maintaining code quality standards.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
