PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Built and maintained **Python**-based **data pipelines** and **ETL workflows** for enterprise applications, automating recurring reporting tasks and improving data accuracy by enabling self-service analytics across stakeholder teams.
- Owned **production monitoring** and **incident response** using **Splunk**, **CloudWatch**, and **Dynatrace**, managing SLA compliance and reducing P1/P2 resolution time through root cause analysis and proactive system optimization.
- Executed **SQL** analytics across **PostgreSQL**, **MySQL**, and **Oracle** to support revenue data hygiene, enrichment, and process improvements—conducting ad-hoc analyses to identify inefficiencies and validate data integrity across systems.
- Designed and deployed **REST APIs** using **Java Spring Boot**, enabling seamless data integration and system connectivity that improved operational workflows and cross-functional collaboration efficiency.
- Automated infrastructure and operational processes via **Jenkins CI/CD pipelines**, **shell scripting**, and **Linux** administration, reducing manual effort and supporting continuous improvement initiatives at scale.
- Collaborated cross-functionally with Sales, Product, and Finance teams to gather technical requirements, translate business needs into data-driven solutions, and drive adoption of process improvements in fast-paced Agile environments.

SKILLS

Data & Analytics – Python, pandas, NumPy, SQL, ETL, data pipelines, root cause analysis.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, shell scripting.

Backend Development – Java, Spring Boot, REST APIs, Flask, FastAPI.

DevOps & Monitoring – Jenkins, Git, Splunk, Dynatrace, CI/CD, log analysis.

Databases – PostgreSQL, MySQL, Oracle, schema management, data validation.

Project & Process Management – Jira, Confluence, Agile/Scrum, cross-functional collaboration.

Communication & Problem Solving – Technical documentation, stakeholder engagement, ambiguity navigation, complex problem decomposition.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise Data Pipeline Automation (HCL Technologies)

- Architected and deployed **Python ETL pipelines** to consolidate data from multiple enterprise sources, enabling scheduled reporting and eliminating manual data aggregation across teams.
- Optimized pipeline performance and reliability through **PostgreSQL** query tuning and **AWS Lambda** serverless execution, reducing processing time by approximately **40%** and improving data freshness.
- Collaborated with Finance and Analytics stakeholders to define data enrichment rules and validation logic, ensuring **data integrity** and alignment with business KPIs.

Production Monitoring & Incident Response System (HCL Technologies)

- Established comprehensive **Splunk** and **Dynatrace** monitoring frameworks for enterprise **Java/.NET applications**, providing real-time visibility into system health and enabling **SLA management** across critical services.
- Developed automated alerting workflows and root cause analysis procedures that reduced **P1/P2 incident resolution time** through proactive issue identification and escalation protocols.
- Mentored junior engineers on observability best practices, log analysis techniques, and **CloudWatch** dashboard configuration to embed continuous improvement in incident response workflows.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
