

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Performed **financial data analysis and reconciliation** using **SQL** (PostgreSQL, MySQL, Oracle) to validate enterprise datasets, identify discrepancies, and support accurate financial reporting across multiple systems.
- Developed **Python automation scripts** for **ETL pipelines and scheduled reporting**, processing financial data and generating recurring management reports with **pandas and NumPy**—improving reporting efficiency by reducing manual effort.
- Supported production monitoring and incident response using **Splunk and CloudWatch**, ensuring system reliability and data integrity for enterprise applications serving finance and business operations teams.
- Collaborated with cross-functional teams on **process improvement initiatives**, documenting workflows in Confluence and managing implementation via **Jira** within Agile ceremonies.
- Maintained detailed **technical documentation and audit trails** using **Linux shell scripting and log analysis**, ensuring compliance with data governance standards and internal control requirements.
- Demonstrated strong **numerical and analytical skills** through data validation, variance analysis, and ad hoc reporting; combined with **attention to detail** in managing complex datasets and meeting tight SLAs in fast-paced environments.

SKILLS

Financial & Data Analysis – SQL (PostgreSQL, MySQL, Oracle), financial reporting, reconciliation, variance analysis, data validation.

Automation & Process Improvement – Python, ETL pipelines, pandas, NumPy, scheduled reporting, process documentation.

Systems & Tools – Excel, Splunk, CloudWatch, Jira, Confluence, Linux, Git.

Technical Skills – Java Spring Boot, REST APIs, Docker, Jenkins CI/CD, AWS (EC2, S3, Lambda).

Professional Competencies – Attention to detail, numerical analysis, deadline management, cross-functional collaboration, Agile methodologies.

Qualifications – MSc Data Analytics (National College of Ireland), BE Computer Science, IELTS Academic Band 7.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Enterprise Financial Data Pipeline (HCL Technologies)

- Designed and maintained **Python ETL pipelines** to extract, transform, and load financial transaction data from multiple sources into centralised repositories.
- Performed **SQL-based data validation and reconciliation** to ensure accuracy of balance sheet accounts and support monthly financial reporting cycles.
- Automated **scheduled reporting processes** using **cron jobs and Python scripts**, reducing manual report generation time and improving data consistency across teams.

Production Monitoring & Reliability Support (HCL Technologies)

- Monitored enterprise application health using **Splunk and CloudWatch**, responding to P1/P2 incidents and maintaining SLAs for finance and business systems.
- Analysed **system logs and metrics** to investigate discrepancies, identify root causes, and document resolution steps for audit and compliance purposes.
- Collaborated with engineering teams on process improvements, implementing enhanced monitoring alerts and documentation to strengthen operational reliability and data integrity.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
