PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Evaluated and monitored **enterprise application quality** across production environments using **Splunk, CloudWatch, and Dynatrace**, identifying inconsistencies and performance weaknesses with acute attention to detail to maintain **99.5% SLA compliance**.
- Designed and executed **Python-based data pipelines and ETL workflows** for real-world data validation and processing, ensuring high accuracy and consistency across complex datasets through structured quality checks.
- Conducted **code reviews and quality assurance** on **Java Spring Boot** REST APIs and features, applying critical thinking to assess output quality, usability, and adherence to design standards across **10+ microservices**.
- Developed **automated evaluation workflows** using **Jenkins CI/CD pipelines** and **shell scripting** to standardize quality assessment processes, reducing manual review time by **30%** while maintaining reliability.
- Collaborated with cross-functional teams (DevOps, QA, product) to define and refine quality criteria, scoring standards, and evaluation guidelines for production deployments and feature rollouts.
- Demonstrated strong observational and analytical skills through **SQL-based data analysis** and log examination on **Linux** systems, identifying root causes and improvement opportunities in complex, ambiguous scenarios.

SKILLS

Data Quality & Evaluation – Data validation, quality assurance, critical analysis, attention to detail, structured feedback.

Data & Automation – Python, SQL (PostgreSQL, MySQL, Oracle), pandas, NumPy, ETL, shell scripting.

Monitoring & Analysis Tools – Splunk, Dynatrace, CloudWatch, Linux log analysis.

Backend & API Development – Java, Spring Boot, REST APIs, Flask, FastAPI.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Collaboration & Workflow – Jira, Confluence, Agile/Scrum, cross-functional teamwork, documentation.

Education – MSc in Data Analytics, BE in Computer Science, IELTS Band 7.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Production Monitoring & Incident Response Optimization (HCL Technologies)

- Reviewed and assessed **enterprise application outputs** across production environments, identifying performance inconsistencies and reliability weaknesses using **Splunk and Dynatrace** evaluation frameworks.

- Applied structured **quality assessment guidelines** to P1/P2 incidents, delivering detailed, actionable feedback to development and DevOps teams to improve system performance and user experience.
- Maintained **high evaluation accuracy and consistency** across **multiple microservices and cloud environments**, ensuring reliable and standardized quality metrics for SLA management.

Data Pipeline Quality & Validation Framework (HCL Technologies)

- Designed and implemented **Python-based ETL pipelines** with embedded quality checks to validate data accuracy, consistency, and completeness across real-world datasets.
- Developed **automated evaluation workflows** using **Jenkins** and **shell scripting** to standardize data quality assessment processes and reduce manual review overhead by **30%**.
- Collaborated with data engineering and analytics teams to refine evaluation criteria, scoring standards, and continuous improvement processes for data-driven decision-making.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
