+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Designed and maintained **CI/CD pipelines** using **Jenkins** and **Git**, enabling rapid, reliable deployments across development, staging, and production environments with **99%** uptime SLA compliance.
- Deployed and managed containerized applications using **Docker** on **AWS** infrastructure (**EC2, S3, Lambda**), implementing infrastructure automation and scaling strategies for enterprise Java and .NET workloads.
- Implemented comprehensive monitoring and observability solutions leveraging **Splunk, CloudWatch, and Dynatrace**, enabling real-time system health tracking, performance optimization, and rapid **P1/P2 incident response** across distributed systems.
- Automated infrastructure provisioning and operational tasks using **Python scripting**, shell scripting, and cron jobs on **Linux** systems, reducing manual deployment time by **40%** and improving system reliability.
- Troubleshoot and resolved infrastructure, deployment, and application issues by analyzing logs, metrics, and system performance data, collaborating cross-functionally with development and operations teams to restore service availability.
- Developed **REST APIs** and microservices using **Java Spring Boot** and built data pipelines with **Python (pandas, NumPy)** for ETL and reporting, gaining hands-on experience with cloud-native application architectures and agile delivery methodologies.

SKILLS

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux system administration, networking fundamentals.

CI/CD & Automation – Jenkins, Git, CI/CD pipeline design, Python scripting, shell scripting, automation.

Monitoring & Logging – Splunk, CloudWatch, Dynatrace, centralized logging, system health monitoring.

Backend Development – Java, Spring Boot, REST APIs, microservices architecture.

Data Engineering & Scripting – Python, SQL (PostgreSQL, MySQL, Oracle), ETL, pandas, NumPy.

DevOps & Collaboration – Jira, Confluence, Agile/Scrum, incident management, code reviews.

Professional Qualifications – MSc Data Analytics, BE Computer Science, IELTS Band 7/9, Full Stack Java Spring Boot & Angular certification.

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Enterprise Application Monitoring & Incident Response Platform (HCL Technologies)

- Designed and deployed a **CloudWatch and Splunk**-based monitoring infrastructure for **10+ enterprise applications**, tracking **500+ metrics** across production environments and achieving **SLA compliance of 99.5%**.
- Implemented automated alerting and escalation workflows using **CloudWatch alarms** and custom **Python scripts**, reducing mean time to incident response (MTTR) by **45%** for critical P1 issues.
- Built **Linux**-based log aggregation and analysis pipelines to identify performance bottlenecks and root causes, enabling proactive issue resolution and system optimization across distributed Java and .NET applications.

CI/CD Pipeline Automation & Docker Containerization (HCL Technologies)

- Architected and maintained multi-stage **Jenkins CI/CD pipelines** integrated with **Git** branching strategies, automating build, test, and deployment processes to **AWS EC2 and Docker** environments.
- Containerized legacy and cloud-native applications using **Docker**, reducing deployment time by **35%** and enabling consistent, reproducible deployments across development, staging, and production environments.
- Developed infrastructure automation scripts in **Python** and shell scripting to provision **AWS resources** and manage configuration changes, supporting agile delivery cycles and enabling self-service deployment capabilities for development teams.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
