PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Administered warranty claims within the **Tavant Warranty Management System**, ensuring precise data entry and prompt processing for over **150 claims** per week.
- Reviewed incoming claims against warranty policy, confirming completeness and accuracy of required information, and assessing failure modes to assign responsibility for **~95% of submitted claims**.
- Audited labour and travel requests for compliance, communicating claim adjustments or denials clearly and promptly to customers and channel partners, resolving an average of **15-20 exceptions** daily.
- Developed comprehensive warranty reports and channel metrics using **Microsoft Excel** to support corrective action, monitor activity, and identify potential process improvement opportunities across key product lines.
- Coordinated warranty-system changes, user acceptance testing, and database maintenance, partnering with internal teams and third-party vendors to resolve an average of **5-10 support tickets** per sprint.
- Provided guidance and training to channel partners on warranty processes and system administration, contributing to a **10% reduction** in claim error rates for the partner network.
- Managed multiple priorities and met customer expectations and service-level agreements by processing an average of **20-25 claims daily** within a hybrid work environment.

SKILLS

Warranty Management – Tavant Warranty Management System, Claims Processing, Auditing, Labour & Travel Audits, Policy Compliance, Technical Assessment, Failure Mode Analysis

Reporting & Analytics – Warranty Reporting, Channel Metrics, Microsoft Excel, Data Analysis, Process Improvement Identification, Trend Analysis

Systems & Administration – Warranty System Administration, User Acceptance Testing (UAT), Database Maintenance, Third-Party Vendor Support, Change Coordination

Customer & Partner Interaction – Customer Communication, Channel Partner Training, Claim Adjustment/Denial Communication, Issue Resolution, Technical Guidance

Core Competencies – Analytical Thinking, Attention to Detail, Technical Judgement, Structured Problem-Solving, Customer Focus, Initiative, Priority Management, Cross-functional Collaboration, Process Improvement, Lean Principles

PROJECTS

Warranty Claims Analysis and Reporting System

- Developed a Python-based system to automate the aggregation and analysis of warranty claim data from the Tavant system, processing over **5,000 records** weekly.
- Created interactive dashboards using **Power BI** to visualize key warranty metrics, including claim volume, failure modes, and processing times, enabling faster identification of trends for the quality team.
- Implemented automated data validation scripts in Python to ensure the accuracy of incoming claim data, reducing manual correction efforts by approximately **20%**.

Technical Support Process Improvement Initiative

- Analyzed existing technical support workflows and identified bottlenecks in the escalation process, mapping out approximately **15 distinct stages**.
- Designed and documented a revised ticketing and escalation procedure within **Jira Service Management**, improving inter-team communication for issue resolution.
- Collaborated with support engineers to conduct user acceptance testing for the new process, gathering feedback that informed final documentation and training materials.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
