HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Engineered **Java Spring Boot** microservices for a scalable logistics platform, focusing on data-driven route planning and integrating with machine learning capabilities.
- Developed and maintained **modern web applications** using **Angular**, creating intuitive user interfaces for complex logistics operations.
- Designed and implemented **RESTful APIs** with clear technical documentation using **Swagger**, facilitating seamless integration between microservices.
- Containerized applications using **Docker** and deployed them to **Kubernetes** clusters, adhering to modern **DevOps** practices for efficient CI/CD pipelines.
- Contributed to the development of event-driven communication between microservices using **Apache Kafka**, ensuring reliable data flow for planning solutions.
- Actively participated in **Scrum ceremonies**, including sprint planning and daily stand-ups, collaborating with a multidisciplinary team to achieve sprint objectives.
- Maintained high software quality standards through rigorous **unit testing**, comprehensive **code reviews**, and adherence to clean code principles across the development lifecycle.

SKILLS

Backend – Java, Spring Boot, Spring Framework, Microservices, RESTful APIs, Apache Kafka, Hibernate, JPA

Frontend – Angular, TypeScript, HTML5, CSS3

DevOps & Cloud – Docker, Kubernetes, AWS, Jenkins, Git, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, DevOps

PROJECTS

Logistics Optimization Platform Backend (HCL Technologies)

- Developed core **Java Spring Boot** microservices to manage and process complex logistics data for route planning.
- Implemented asynchronous communication patterns using **Apache Kafka** for inter-service data exchange, handling approximately 2,000 messages per second during peak loads.
- Designed and integrated **RESTful APIs** with **Swagger** documentation for external system integrations and internal service discovery.

Angular-Based Logistics Dashboard (HCL Technologies)

- Built interactive **Angular** frontend components to visualize route planning data and operational metrics for logistics managers.
- Integrated with backend APIs to display real-time updates and enable user interaction for optimizing delivery schedules.
- Applied **clean code principles** and performed unit testing to ensure a stable and maintainable user interface, supporting an estimated 500 daily active users.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
