PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production support for enterprise financial-services applications, ensuring adherence to strict SLAs and responding to P1/P2 incidents using **Splunk** and **Dynatrace** for monitoring and analysis.
- Developed **Python** scripts to automate ETL processes and generate scheduled reports, improving data processing efficiency for operational teams.
- Executed complex SQL queries for data validation and performed schema modifications across **PostgreSQL** and **Oracle** databases to support system integrations.
- Contributed to feature development and bug fixes for Java Spring Boot services, including the design and implementation of **REST APIs** for cross-service communication.
- Containerised Java applications using **Docker** and deployed them to **AWS EC2** instances, enhancing deployment consistency and operational manageability.
- Participated in Agile ceremonies, conducted code reviews, and managed defect tracking within **Jira** and **Confluence** to ensure timely delivery of software enhancements.
- Provided operational control and trade validation for financial markets products including **FX**, **Fixed Income**, and **Interest Rate Derivatives**, ensuring accuracy in trade lifecycle processes.

SKILLS

Core Banking Operations – Trade validation, Trade confirmation, Settlement, Cash reconciliation, Margining process, Regulatory reporting, Management reporting

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Monitoring & Observability – Splunk, Dynatrace

BI & Data Visualization – Power BI, Tableau, DAX, Power Query

PROJECTS

Payments Operations Dashboard Enhancement

- Developed **Java Spring Boot** microservices to process and enrich transaction data, improving the real-time monitoring capabilities of a financial-services operations dashboard.
- Implemented robust error handling and alerting mechanisms using **JMS** and **Splunk**, reducing manual intervention for failed payment message triage by approximately 30%.
- Collaborated with business analysts to refine reconciliation workflows and enhance audit trail logging, ensuring compliance with operational control requirements.

Automated Trade Reconciliation Reporting

- Engineered a **Python** data pipeline to extract and transform trade settlement data from multiple sources, including **PostgreSQL** and flat files.
- Created automated reconciliation reports using **pandas** and generated output files in CSV and Excel formats, decreasing report generation time from 4 hours to under 30 minutes.
- Integrated the reporting script into a **Jenkins** CI/CD pipeline for scheduled execution, ensuring consistent and timely delivery of reconciliation summaries to operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
