PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and executed IT project installations across customer sites, including conducting site surveys and planning technical implementations in collaboration with Technical Leads and the Project Management Office.
- Developed and documented project processes and implementation procedures for the technical team, ensuring consistency and adherence to company standards.
- Oversaw multiple project aspects, ensuring timely delivery and gathering execution data to evaluate and refine implementation methodologies.
- Addressed complex technical challenges involving software, hardware, networking, and infrastructure issues, acting as an escalation point for helpdesk and field engineers.
- Built and maintained strong working relationships with customers, providing regular project progress updates and managing expectations on timelines.
- Liaised effectively with vendors and other IT personnel to resolve technical issues and ensure seamless integration of solutions.
- Containerized Java Spring Boot microservices using **Docker** and deployed them to an **AWS** environment, managing configurations and basic resource allocations.

SKILLS

Project Management – Project Planning, Site Surveys, Process Documentation, Vendor Liaison, Technical Estimation

Software Engineering – Java, Spring Boot, REST APIs, Microservices, Docker, AWS

Databases – PostgreSQL, MySQL, Oracle, SQL

Operating Systems – Linux, Shell Scripting

Monitoring & Support – Splunk, Dynatrace, CloudWatch, Incident Response, SLA Management

Scripting & Automation – Python, Jenkins, Git

PROJECTS

Enterprise System Integration with Java Spring Boot

- Developed **Java Spring Boot** microservices to integrate disparate enterprise systems, handling data exchange via REST APIs.
- Implemented robust error handling and logging mechanisms using **Spring Boot Actuator** and **Splunk** for enhanced system observability.
- Containerized the microservices using **Docker**, preparing them for deployment onto cloud infrastructure.

Automated Reporting Pipeline with Python and SQL

- Engineered a **Python**-based ETL pipeline to extract, transform, and load data from multiple **PostgreSQL** and **Oracle** databases.
- Generated scheduled daily and weekly reports by querying and aggregating data, delivering insights to business stakeholders through automated scripts.
- Managed the pipeline execution using **Cron jobs** and implemented basic data validation checks to ensure accuracy.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
