PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the planning and implementation of IT projects for enterprise customers, collaborating with Technical Leads and the Project Management Office to ensure timely delivery.
- Conducted detailed site visit surveys and took the lead for onsite installation works, ensuring all technical requirements were met for customer deployments.
- Researched, developed, and tested new IT solutions and products tailored to the specific needs of the hospitality and leisure industry clients.
- Documented and refined project processes, contributing to the development of standardized operational procedures within the technical team.
- Addressed intricate technical challenges across software, hardware, networking, and infrastructure, acting as an escalation point for helpdesk and field engineers.
- Built and maintained strong working relationships with customers, providing regular updates on project progress, timelines, and any associated risks.
- Containerized and deployed backend Java Spring Boot services to AWS EC2 instances, managing Jenkins pipelines for CI/CD and monitoring application performance with CloudWatch.

SKILLS

Project Management – Project Planning, Implementation, Site Surveys, Process Documentation, Reporting, Agile Methodologies

Technical Expertise – Software Installation, Hardware Configuration, Networking, Infrastructure Support, Troubleshooting, Problem Solving

Customer Engagement – Customer Relationship Management, Technical Consultation, Project Updates, Stakeholder Communication, Escalation Management

Development & Operations – Java, Spring Boot, REST APIs, SQL, PostgreSQL, AWS (EC2, S3, CloudWatch), Docker, Jenkins, Git, Linux

Data & Analytics – Power BI, Tableau, DAX, Power Query, R, Python (pandas, NumPy, scikit-learn), Data Modelling

Business Systems – ERP Integration Support, Change Management, Reconciliation Workflows, Transaction Monitoring

PROJECTS

Customer IT Infrastructure Deployment (HCL Technologies)

- Led the end-to-end deployment of IT infrastructure solutions for enterprise clients, including hardware setup, network configuration, and software installation.
- Developed comprehensive site survey reports and installation plans, ensuring accurate scope definition and resource allocation for project success.
- Collaborated with client IT teams and vendor support to resolve technical issues encountered during deployment, ensuring minimal disruption to operations.

Automated Reporting System for Operations (HCL Technologies)

- Engineered Python scripts to automate the generation of daily operational reports, consolidating data from multiple SQL databases (PostgreSQL, Oracle).
- Designed and implemented data extraction and transformation logic using pandas to prepare data for reporting, reducing manual effort by **~40%**.
- Integrated the reporting script with a Jenkins scheduler to ensure timely delivery of reports to business stakeholders via email, improving data accessibility.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
