HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Power BI dashboards** to visualize key quality metrics and patient outcome data, enabling timely decision-making for clinical quality information projects.
- Analyzed and interpreted complex healthcare datasets using **statistical methods** and **data modelling** techniques, ensuring accuracy and reliability for internal and external reporting requirements.
- Designed and implemented data flows and data sets to support specific data requirements for **clinical quality information projects**, ensuring data integrity and usability.
- Collected and collated routine data and information, transforming raw data into usable metrics and technical summaries for reporting purposes.
- Provided guidance and support on data interpretation, measures, and analysis techniques to staff involved in various quality improvement projects.
- Collaborated with Quality Managers and wider teams to analyze and report data according to project aims and specific requirements, contributing to the UPMC Ireland Quality Improvement framework.
- Managed and maintained **quality management systems** to ensure compliance with healthcare standards and regulations, developing and monitoring quality metrics and performance indicators.

SKILLS

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Statistical Analysis, R, RStudio, Python (pandas, NumPy, scikit-learn)

Healthcare Data – Clinical Quality Information, PREMs, PROMs, Patient Satisfaction, Health Outcomes, Quality Metrics, Performance Indicators

Data Management & Reporting – Data Sets, Information Flows, Data Collation, Data Interpretation, Technical Reports, Charts, Graphs, Data Standards, Automation Tools

Quality & Compliance – Quality Management Systems, Healthcare Standards, Regulatory Compliance, Process Improvement, Audit, Lean Requirements

Programming & Scripting – Python, SQL, Java, Spring Boot

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development Tools & Methodologies – Jenkins, Git, Jira, Confluence, Agile/Scrum

PROJECTS

Healthcare Quality Metrics Dashboard (MSc Project)

- Developed an interactive **Power BI dashboard** to track key performance indicators for patient care quality, integrating data from multiple simulated sources.
- Applied **DAX measures** and **data modelling** techniques to create insightful visualizations, enabling stakeholders to identify trends in patient outcomes and satisfaction.
- Automated data extraction and transformation using **Power Query**, reducing manual data preparation time by an estimated **40%** for reporting cycles.

Patient Outcome Analysis & Reporting Tool (MSc Project)

- Engineered a Python-based data pipeline to collect and process simulated patient outcome data, applying **statistical methods** for trend analysis.
- Performed exploratory data analysis using **pandas** and **NumPy** to identify correlations between treatment interventions and patient recovery times.
- Generated comprehensive technical reports detailing analysis procedures, findings, and visual representations of data, directly supporting the MSc coursework requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
