PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and designed data sets and information flows to support requirements for clinical quality information projects, transforming raw data into actionable insights.
- Analyzed and interpreted complex healthcare data using statistical methods and data modelling, ensuring accuracy and reliability for quality improvement initiatives.
- Prepared detailed technical reports on quality metrics, patient experiences, and outcomes, creating tables, charts, and graphs for management and healthcare teams.
- Implemented data standards and deployed automation tools to extract, synthesize, and validate data, transforming it into usable metrics for the Quality Data Analysis team.
- Collaborated with clinical teams and patient care coordinators to understand their needs, integrate feedback into quality improvement processes, and ensure alignment with project objectives.
- Collected and collated complex data and information on a routine basis to support both internal reporting and data returns to external healthcare organisations.
- Maintained quality management systems, developing and monitoring quality metrics and performance indicators to ensure compliance with healthcare standards and regulations.

SKILLS

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Methods, Exploratory Data Analysis, A/B Testing, Time-Series Analysis

Programming & Scripting – Python, pandas, NumPy, R / RStudio, SQL (PostgreSQL, MySQL, Oracle), Java, Spring Boot

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Quality & Healthcare – Quality Management Systems, Clinical Quality Information, PREMs, PROMs, Patient Satisfaction, Healthcare Standards, Regulatory Compliance

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace, Change Management

PROJECTS

Clinical Quality Data Dashboard (MSc Project)

- Designed and developed an interactive Power BI dashboard to visualize key performance indicators for clinical quality information, integrating data from multiple sources.
- Applied DAX measures and Power Query to clean, transform, and model patient outcome data, enabling detailed analysis of PREMs and PROMs for service improvement.
- Published reports and dashboards to stakeholders, providing actionable insights into patient satisfaction and identifying areas for enhancement in healthcare delivery.

Healthcare Data Collation & Reporting Automation (HCL Technologies)

- Developed Python scripts to automate the collation and validation of complex data sets from various internal systems for regulatory reporting purposes.
- Implemented SQL queries against PostgreSQL databases to extract and transform data for reporting to external healthcare organizations, reducing manual effort by approximately 40%.
- Assisted in the maintenance of production environments, ensuring data integrity and adherence to strict SLAs and GDPR awareness for sensitive patient information.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
