PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Power BI dashboards** for Finance and Business Growth teams, enhancing reporting accuracy for monthly and quarterly cycles.
- Wrote and optimised complex **SQL queries** to support ad-hoc financial analysis and contribute to the build-out of new analytics capabilities.
- Automated reporting and reconciliation processes using **Python scripts**, improving efficiency and reducing manual data handling for business operations.
- Collaborated with Finance, Commercial, and Operations colleagues to gather data requirements and deliver actionable insights for strategic decision-making.
- Managed recurring reporting deadlines with a methodical approach, ensuring high standards of accuracy and attention to detail in all numerical outputs.
- Documented data processes and created runbooks, identifying opportunities for automation and continuous improvement in reporting workflows.
- Supported month-end and reporting cycles, contributing essential data inputs for management and board-level reporting to strict timelines.

SKILLS

BI & Data Visualisation – Power BI, Tableau, DAX, Power Query, Data Modelling

Data Analysis & Querying – SQL, Python, pandas, NumPy, R, RStudio

Programming & Scripting – Python, Java, Spring Boot, REST APIs, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Shell Scripting

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, Data Warehousing

DevOps & Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

Business & Finance Acumen – Financial Reporting, Commercial Analysis, Reconciliation Workflows, Transaction Monitoring

PROJECTS

Automated Financial Reporting Suite (HCL Technologies)

- Engineered a suite of Python scripts to automate the generation of monthly financial reports, consolidating data from multiple PostgreSQL and Oracle sources.
- Developed interactive **Power BI dashboards** to visualise key financial metrics, providing stakeholders with real-time insights into P&L; and margin analysis.
- Implemented data validation checks within the Python ETL pipelines, reducing reconciliation discrepancies by approximately 15% for monthly closing activities.

Customer Billing Data Analysis Platform (MSc Project)

- Designed and implemented data models in Power BI to represent complex customer billing structures, supporting analysis of revenue and usage patterns.
- Wrote **SQL queries** against a data warehouse to extract and aggregate billing data, feeding into Power BI reports and supporting ad-hoc analytical requests.
- Created **DAX measures** to calculate key performance indicators such as customer lifetime value and monthly recurring revenue, presenting findings through detailed dashboards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
