HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented reusable **React** components and state management solutions, enhancing the UI consistency across the application.
- Developed complex features using **TypeScript**, focusing on maintainability and type safety, contributing to a reduction in runtime errors by approximately **30%**.
- Integrated **AI-assisted development** tools like Claude Code into the daily workflow, refining prompts and scaffolding to improve code generation efficiency by an estimated **15%**.
- Collaborated with Product and Design teams to translate loosely defined requirements into actionable technical specifications for new features.
- Contributed to frontend architecture decisions, introducing patterns for state management and component design that were adopted across the team.
- Owned the full lifecycle of shipped features, including responding to production incidents and contributing to post-incident analysis and follow-up actions.
- Containerized frontend applications using **Docker** and configured deployment pipelines with **Jenkins** for automated testing and release.

SKILLS

Frontend Frameworks – React, TypeScript, JavaScript

Development Tools – Docker, Jenkins, Git, Jira, Confluence

AI Development – Claude Code, AI Code Agents, Prompt Engineering

State Management – Redux, Context API

Testing – Jest, React Testing Library

Backend/Cloud – Node.js, AWS, PostgreSQL

PROJECTS

Enterprise SaaS Platform UI Modernization

- Rebuilt core UI modules for an enterprise SaaS platform using **React** and **TypeScript**, improving component reusability and developer experience.
- Implemented a centralized state management solution using Redux, streamlining data flow and reducing prop-drilling issues across complex user interfaces.
- Developed integration points with backend services via **REST APIs**, ensuring seamless data exchange and efficient feature delivery for internal stakeholders.

Customer Onboarding Portal Enhancements

- Designed and developed a self-service customer onboarding portal using **React**, integrating with internal APIs to automate account setup processes.
- Collaborated with the customer success team to gather requirements and iterate on the portal's user experience, aiming to reduce manual support effort by **20%**.
- Shipped key features for the portal, including interactive guides and progress tracking, enhancing the initial customer adoption phase.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
