HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and owned investigations into alert-related escalations, identifying root causes across metric behavior, configuration edge cases, and backend evaluation logic for **production alerting**.
- Collaborated with **Product and Engineering** teams to flag inconsistent monitor behavior, propose enhancements, and ensure alignment with user expectations for the alerting platform.
- Created scalable diagnostics and reusable response strategies to shorten time to resolution for complex customer alerting issues, reducing average investigation time by **18%**.
- Led enablement efforts, including live office hours and async training, ensuring global **Solutions teams** understood the alerting platform and its best practices.
- Designed and implemented **Java Spring Boot** REST APIs for cross-service data exchange, including request validation and circuit-breaker patterns.
- Containerized **Java applications** using Docker and deployed them to an **AWS EKS** cluster, managing Helm chart configuration and resource limits for predictable rollouts.
- Supported production enterprise Java/.NET applications using **Splunk and Dynatrace**, managing SLAs and responding to P1/P2 incidents.

SKILLS

Alerting & Monitoring – Metric Behavior, Configuration Edge Cases, Backend Evaluation Logic, Monitor Types, Thresholds, Evaluation Windows, Notification Rules, Alert Fatigue, Meaningful Signals

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Hibernate, JPA, JUnit, Mockito

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, Linux

Databases – PostgreSQL, MySQL, Oracle

Observability & Support Tools – Splunk, Dynatrace, Jira, Confluence, PagerDuty

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, RStudio, Data Modelling, Data Warehousing

PROJECTS

Enterprise Alerting System Enhancement (HCL Technologies)

- Engineered a Python-based diagnostic tool to analyze alert evaluation logs, identifying patterns in delayed notifications across a fleet of **5,000+ monitored services**.
- Developed reusable alerting configurations in **Java Spring Boot** for common use cases, reducing manual setup time for operations teams by approximately **30%**.
- Created comprehensive documentation and runbooks for the alerting platform, improving onboarding efficiency for new support engineers by **~2 weeks**.

Production Incident Root Cause Analysis Automation (HCL Technologies)

- Automated the aggregation of logs from **Splunk and Dynatrace** for P1/P2 incidents, reducing manual data collection time from 2 hours to under **15 minutes**.
- Built Python scripts to parse and correlate error messages from distributed Java applications, pinpointing root causes in data processing workflows and improving mean time to resolution by **22%**.
- Integrated monitoring alerts with a ticketing system via **Jira API**, ensuring all critical issues were tracked and assigned within 5 minutes of detection.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
