+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Collaborated with sales teams to gather customer requirements and translate them into technical solutions for workflow automation, aligning initiatives with product capabilities.
- Developed and delivered compelling technical presentations and demonstrations showcasing product value to both technical specialists and business leaders for enterprise opportunities.
- Supported the creation of responses to RFPs and customer inquiries by gathering information and clarifying technical requirements for a high-profile enterprise client.
- Contributed to the development of product and industry content, including whitepapers and enablement materials, to educate and inspire potential customers.
- Gained practical experience in installing, configuring, and showcasing software solutions through proof-of-concept activities tailored to customer needs.
- Participated in customer conversations as a developing solution expert, connecting business goals with product capabilities and value propositions.
- Containerized enterprise applications using **Docker** and deployed them to **AWS EC2** instances, managing configurations via **Jenkins** pipelines for automated deployments.

SKILLS

Automation & Workflow – Control-M, Workload Automation, Data Pipelines

Presales & Consulting – Solution Engineering, Technical Presentations, Demonstrations, Requirements Gathering, RFPs, Proof-of-Concept (POC)

Programming & Scripting – Python, Java, Spring Boot, SQL

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker, Linux

CI/CD & DevOps – Jenkins, Git, Code Reviews

Data & Analytics – Power BI, Tableau, DAX, Data Modelling

Enterprise Systems – ERP Integration, Enterprise Applications

PROJECTS

Enterprise Workflow Automation Solution Design

- Designed and presented a technical solution for automating complex business workflows using a leading enterprise automation platform, focusing on time-sensitive transaction processing.
- Developed a proof-of-concept demonstrating critical workflow orchestration capabilities, integrating with existing enterprise systems via REST APIs and database connectors.
- Mapped customer requirements for operational efficiency and data pipeline management to specific product features, delivering a clear technical value proposition.

Customer Onboarding Toolkit for Enterprise Software

- Created a comprehensive technical onboarding guide and demonstration suite for a new enterprise software product, aimed at accelerating customer adoption.
- Built sample integration scripts in **Python** and **Java** to illustrate common use cases and facilitate initial client environment setup.
- Developed a set of interactive **Power BI** dashboards to visualize key performance indicators for customer success teams, tracking adoption metrics.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
