

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, designing and implementing **REST APIs** for inter-service communication and data exchange.
- Engineered and optimized persistence layers using **Hibernate** and **JPA**, managing complex object-relational mapping and ensuring efficient data retrieval for enterprise applications.
- Authored comprehensive unit and integration tests using **JUnit** and **Mockito**, achieving over 85% code coverage for new Java features and enhancements.
- Contributed to technical leadership within an agile team, participating in sprint planning, technical estimation, and code reviews to ensure adherence to quality standards.
- Designed and developed automated tests for new features and bug fixes, focusing on data-driven quality assurance and reducing manual testing effort by approximately **30%**.
- Investigated and resolved complex technical issues across distributed systems, performing root cause analysis and implementing permanent solutions with a focus on system stability.
- Containerized Java applications using **Docker** and deployed them to **AWS EC2** instances, managing build pipelines with **Jenkins** for continuous integration and delivery.

SKILLS

Languages – Java, Python, SQL, JavaScript, TypeScript

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI, React

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools – Jira, Confluence, Splunk, Dynatrace

Data Analytics/BI – Power BI, Tableau, DAX, Power Query, R/RStudio

Concepts – Microservices, REST APIs, Agile/Scrum, CI/CD, Data Warehousing, ETL

PROJECTS

Enterprise Java Microservice Refactoring (HCL Technologies)

- Modernized a legacy Java service by refactoring core business logic into a set of independent **Spring Boot** microservices, improving maintainability and scalability.
- Implemented efficient data persistence using **JPA** with a **PostgreSQL** backend, ensuring transactional integrity and optimizing query performance for high-volume data operations.
- Developed a comprehensive suite of **JUnit** tests for the new microservices, covering critical business workflows and achieving an average code coverage of **90%**.

Automated Reporting Pipeline with Python (HCL Technologies)

- Developed a Python-based ETL pipeline to extract, transform, and load data from multiple sources into a central data warehouse for operational reporting.
- Automated the generation and distribution of daily and weekly performance reports using **pandas** and custom Python scripts, reducing manual reporting effort by approximately **15 hours** per week.
- Integrated the pipeline with **AWS S3** for data storage and utilized **Linux cron jobs** for scheduled execution, ensuring reliable and timely data delivery.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
