

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained REST APIs using **Java Spring Boot** for inter-service communication, handling approximately 1,500 requests per minute.
- Implemented persistence logic with **Hibernate** and **JPA**, managing complex object-relational mappings for core application entities.
- Authored JUnit tests and performed code reviews for Java modules, ensuring adherence to object-oriented design principles and improving overall code quality by an estimated **15%**.
- Contributed to the design and development of new features for a mission-critical network management application using **Java** and **TypeScript**.
- Investigated, diagnosed, and resolved customer-reported software issues within an **Agile Scrum** framework, reducing average ticket resolution time by **20%**.
- Participated actively in daily stand-ups, sprint planning, and retrospectives, contributing to technical estimations and process improvements for the development team.
- Containerized backend services using **Docker** and managed deployments on **AWS EC2** instances, streamlining the development and deployment workflow.

SKILLS

Languages – Java, TypeScript, SQL, Python, R

Frameworks/Libraries – Spring Boot, Hibernate, JPA, Spring Framework, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins

Methodologies – Agile, Scrum

Tools – Jira, Confluence, Splunk, Dynatrace, Claude Code

PROJECTS

Enterprise Java Network Management System Enhancement

- Developed new backend features for a large-scale network management system using **Java Spring Boot**, integrating with existing data processing modules.
- Designed and implemented database schemas and queries in **PostgreSQL** to support enhanced reporting capabilities, improving data retrieval performance by **30%**.
- Wrote comprehensive unit and integration tests using **JUnit** to ensure feature stability and maintainability within the Java application.

Full-Stack Telecommunications Dashboard Application

- Built a responsive frontend interface using **TypeScript** and **React** to visualize network performance metrics and alert statuses.
- Developed RESTful APIs with **Java Spring Boot** to serve data from the backend to the frontend dashboard, handling approximately 500 requests per second.
- Collaborated with operations teams to define requirements for critical operational alerts and reporting features, ensuring alignment with user needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
