

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **RESTful APIs** using **Java** and **Spring Boot** for core backend services, handling over 500 requests per minute.
- Designed and implemented data persistence layers with **Hibernate** and **JPA**, ensuring efficient data retrieval and integrity for enterprise applications.
- Authored **unit tests** and performed **code reviews** for junior engineers, contributing to a **15% reduction** in production defects.
- Collaborated with product owners in **Agile/Scrum ceremonies**, providing technical estimations and contributing to sprint planning for new feature development.
- Integrated **PostgreSQL** databases with backend services, writing complex queries and performing data modeling to support new application features.
- Troubleshoot and resolved production issues across the full stack, performing root cause analysis and implementing fixes to maintain application stability.
- Containerised **Java Spring Boot** applications using **Docker**, preparing them for deployment on cloud infrastructure.

SKILLS

Frontend – React.js, Redux, JavaScript/ES6+, Webpack

Backend – Java, Spring Boot, Hibernate/JPA, RESTful API design

Database – PostgreSQL, SQL

Architecture – OOP, Design Patterns, MVC

DevOps & Tools – Git, Agile/Scrum, CI/CD, AWS, Docker

PROJECTS

Enterprise Java Backend Service Development

- Engineered a **Java Spring Boot** microservice to manage user authentication and authorization, integrating with an existing enterprise identity provider.
- Implemented **RESTful APIs** adhering to OpenAPI specifications, ensuring seamless integration with frontend applications and other backend systems.
- Wrote comprehensive **JUnit and Mockito** tests, achieving over **85% code coverage** for critical service components and reducing integration bugs by **30%**.

Customer Data Integration Platform

- Developed a **Java**-based data ingestion service that processed and validated customer data feeds from multiple enterprise clients.
- Integrated the service with **PostgreSQL**, designing schemas and optimizing queries to handle large volumes of incoming data efficiently.
- Built a **REST API** for clients to submit data securely and for internal systems to retrieve processed data, supporting approximately **1,500 data submissions daily**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
