

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained high-throughput **Java microservices** on **AWS**, handling millions of daily interactions for enterprise customers.
- Designed and implemented **RESTful APIs** and common web service patterns to facilitate seamless integration between backend systems.
- Collaborated with experienced engineers on **code reviews** and **pair programming** sessions to ensure high-quality, maintainable code.
- Participated actively in **agile ceremonies**, including sprint planning and backlog refinement, contributing to accurate technical estimations.
- Troubleshoot and resolved production issues, contributing to a **two-week on-call rotation** for critical system support.
- Contributed to the enhancement of **CI/CD pipelines**, enabling reliable and repeatable deployments of microservices.
- Authored clear and concise **technical documentation** for new features and system architecture, aiding knowledge transfer within the team.

SKILLS

Programming Languages – Java, Python, SQL, R

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Backend Frameworks & Technologies – Spring Boot, REST APIs, Hibernate, JPA, Microservices, Event-driven architectures, Kafka, SQS/SNS

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Docker, Jenkins, Git, Infrastructure-as-code

Observability & Monitoring – Logging, Metrics, Tracing, Alerting, Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn

PROJECTS

Java Backend Service for Customer Interaction Orchestration

- Engineered a **Java Spring Boot microservice** to orchestrate customer interactions, processing over 1.5 million events daily.
- Implemented **RESTful APIs** for seamless integration with upstream and downstream systems, ensuring robust data exchange.
- Containerized the service using **Docker** and deployed it to an **AWS** environment, managing configurations via **Jenkins** pipelines.

Real-time Data Processing Pipeline for AI Feature Engineering

- Developed a **Python-based ETL pipeline** to ingest and transform real-time customer interaction data for AI model feature engineering.
- Utilized **pandas** and **NumPy** for efficient data manipulation and feature extraction, handling datasets exceeding 500GB.
- Integrated the pipeline with **AWS S3** for data storage and **SQS/SNS** for asynchronous processing, supporting a **~90%** data ingestion success rate.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
