

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for real-time data processing, handling approximately **4,000 requests per second** during peak load.
- Developed and maintained **Hibernate** mappings and queries for complex relational data models, ensuring efficient data persistence and retrieval across enterprise applications.
- Authored well-structured **Java** code incorporating **Design Patterns** and comprehensive **JUnit** test coverage, contributing to a **15% reduction** in post-deployment defects.
- Participated in **code reviews** and sprint planning, providing technical estimations and guidance to junior engineers on the team.
- Collaborated with product managers to define technical requirements for new features, translating business needs into actionable development tasks.
- Supported operational excellence by investigating and resolving production issues, contributing to a **20% improvement** in incident resolution times.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, streamlining the deployment process and improving environment consistency.

SKILLS

Languages – Java, TypeScript, Python, SQL, R

Frameworks/Libraries – Spring Boot, Hibernate, Spring Cloud, Flask, FastAPI, pandas, NumPy, scikit-learn

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle, NoSQL

APIs/Messaging – RESTful APIs, Service-Oriented Architecture

Observability – Splunk, Dynatrace, CloudWatch

Methodologies – Agile, Scrum

PROJECTS

Enterprise Messaging Platform Microservices (HCL Technologies)

- Developed **Java Spring Boot** microservices to manage high-volume message queues, processing over **5,000 messages per minute**.
- Implemented robust error handling and retry mechanisms using **Spring Retry**, significantly reducing message processing failures.
- Integrated services with **PostgreSQL** for persistent storage of message metadata and processing status, ensuring data integrity.

Real-time Communication Backend (HCL Technologies)

- Built **RESTful APIs** in Java for real-time communication services, supporting bi-directional data exchange.
- Containerized the application using **Docker** for consistent deployment across development and production environments.
- Wrote comprehensive **unit and integration tests** using JUnit, achieving over **85% code coverage** for critical API endpoints.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
