

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed **production support** for enterprise applications using **Splunk** and **Dynatrace**, focusing on SLA adherence and P1/P2 incident response.
- Developed **Python scripts** for automating ETL processes and generating scheduled operational reports, improving data availability for downstream systems.
- Executed **SQL queries** across PostgreSQL, MySQL, and Oracle databases for data validation, ad-hoc reporting, and supporting schema evolution.
- Contributed to the delivery of **database upgrade services** for cloud migration customers, ensuring data integrity and minimal disruption.
- Analyzed and understood complex, customized **codebases**, identifying critical components and implementing context-aware modifications.
- Participated in **code reviews** and mentored junior team members on best practices for Java development and database interactions.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, managing configurations and resource allocation.

SKILLS

Programming Languages – Java, Python, SQL, XML, JSON

Databases – PostgreSQL, MySQL, Oracle, Relational Databases

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Tools & Technologies – GIT, Jenkins, Jira, Confluence, Docker, RESTful APIs, Gradle, IntelliJ, Splunk, Dynatrace

Methodologies – Agile, Scrum, Change Management

Concepts – Object-Oriented Programming, Data Modeling, AI/ML Concepts, LLMs

PROJECTS

Database Upgrade Automation Tooling (HCL Technologies)

- Developed a **Python**-based tool to automate the analysis of 3-way merge conflicts in codebases during database upgrade processes.
- Implemented logic to infer developer intent across multiple branches, facilitating informed decisions for conflict resolution and ensuring correct outcomes.
- Integrated the tool with **Git**, providing a streamlined workflow for developers managing concurrent code modifications during system updates.

Cloud Migration Data Validation Service (HCL Technologies)

- Built a **Java Spring Boot** service to validate customer datasets during cloud migration, identifying discrepancies and analyzing root causes.
- Developed **SQL queries** to compare data between source and target environments, ensuring consistency and accuracy post-migration.
- Designed and implemented RESTful APIs for the service, enabling integration with broader migration orchestration tools and reporting mechanisms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
