+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **analytical models** and investment tools to support portfolio construction and risk management for emerging markets fixed income portfolios, working under senior portfolio manager supervision.
- Performed fundamental **macroeconomic and credit analysis** on sovereign credit issuers, contributing to weekly deep dive sovereign credit research reviews and internal market debate.
- Monitored key **economic developments**, central bank policies, and geopolitical events impacting emerging markets fixed income, informing trade generation and investment decisions.
- Prepared detailed **investment notes and presentations** for internal stakeholders, summarizing research findings and proposed investment strategies.
- Contributed to the development and maintenance of **Python-based analytical tools** for data processing and scenario analysis, enhancing the team's quantitative capabilities.
- Collaborated with cross-functional teams to gather requirements and support the implementation of new analytical features for the investment team's platform.
- Managed production support for enterprise **Java and Python applications**, including incident response for P1/P2 issues and SLA management using Splunk and Dynatrace.

SKILLS

Finance & Economics – Emerging Markets Fixed Income, Sovereign Credit Analysis, Macroeconomics, Portfolio Management, Investment Research, ESG Integration, Financial Modelling, Risk Management

Programming & Scripting – Python, Java, SQL, R

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn

Databases & Warehousing – PostgreSQL, MySQL, Oracle, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Methodologies – Excel, Bloomberg, Jira, Confluence, Agile, Scrum

PROJECTS

Emerging Markets Credit Risk Analysis Tool (HCL Technologies)

- Developed a **Python application** integrating **pandas** and **scikit-learn** to automate the extraction and analysis of macroeconomic indicators and credit default swap data for sovereign issuers.
- Built interactive **Power BI dashboards** to visualize credit risk metrics, sovereign ratings, and economic trends, providing actionable insights to the financial services client's research team.
- Implemented **SQL queries** against PostgreSQL to extract and aggregate historical financial data from multiple sources, forming the basis for the analytical models.

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced **Java Spring Boot** microservices supporting a financial services operations dashboard, focusing on improving transaction monitoring and alerting for failed payment messages.
- Refactored **SQL queries** in Oracle to optimize data retrieval for reconciliation workflows, reducing report generation time by approximately 18% for the operations team.
- Authored technical documentation and participated in UAT coordination for system configuration updates, ensuring smooth change-control management across interconnected systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
