

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **cloud-native microservices** using **Java** and **Spring Boot**, focusing on scalability and resilience for enterprise applications.
- Developed and maintained **RESTful APIs** for seamless communication between microservices, adhering to industry best practices for design and documentation.
- Implemented and managed **CI/CD pipelines** using **Azure DevOps**, automating build, test, and deployment processes to accelerate delivery cycles.
- Deployed and managed **microservices** on **Azure cloud platforms**, specifically utilizing **Azure Container Apps** for efficient container orchestration.
- Troubleshoot and debugged complex issues within distributed microservices environments, ensuring high availability and performance.
- Collaborated with cross-functional teams, including product owners and other engineers, to define requirements and translate them into actionable software designs.
- Containerized applications using **Docker**, creating **Dockerfiles** and **Docker Compose** configurations for consistent development and deployment environments.

SKILLS

Languages – Java, Python, SQL, JavaScript, TypeScript, R

Frameworks & Libraries – Spring Boot, Spring Cloud, Hibernate, JPA, JUnit, Mockito, NestJS, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure (Azure Container Apps)

Containerization & Orchestration – Docker, Docker Compose, Kubernetes

CI/CD & DevOps Tools – Azure DevOps, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle, SQL Server

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

PROJECTS

Cloud-Native Microservices for Insurance Risk Assessment

- Developed a suite of **Java Spring Boot microservices** to process and analyze insurance risk data, integrating with Azure cloud services.
- Designed and documented **RESTful APIs** for inter-service communication, enabling efficient data exchange for risk calculation modules.
- Containerized the microservices using **Docker** and deployed them to **Azure Container Apps**, establishing repeatable deployment patterns.

Automated CI/CD Pipeline for Financial Transaction Processing

- Engineered an automated **CI/CD pipeline** using **Azure DevOps** to build, test, and deploy Java-based financial transaction processing services.
- Integrated automated testing suites, including **JUnit**, into the pipeline to ensure code quality and reduce regression defects by approximately **30%**.
- Managed deployment configurations for microservices on Azure, ensuring adherence to operational requirements and performance targets.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
