

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** microservices to support new marketing campaign features, focusing on **RESTful API** design and efficient data exchange.
- Implemented **Hibernate** mappings and optimized **SQL** queries against a **PostgreSQL** database to improve data retrieval performance for customer engagement analytics.
- Wrote **JUnit** and **Mockito** tests for **Java** backend services, achieving over **85% code coverage** for critical business logic and reducing production defects by **15%**.
- Collaborated with product managers and designers to translate user stories into technical specifications for new platform features, participating in **Agile ceremonies** and sprint planning.
- Developed and maintained **Python** scripts for data ingestion and transformation, supporting marketing analytics by automating the processing of **~50,000 customer records** weekly.
- Contributed to code reviews and team discussions on technical design, advocating for **maintainable code** and **reusable components** to enhance the overall quality of the marketing platform.
- Containerized backend services using **Docker** and deployed them to a development **AWS EC2** environment, ensuring consistent application behavior across different stages of the development lifecycle.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, RESTful APIs, Microservices, JUnit, Mockito, Maven, Gradle

Data Management – SQL, PostgreSQL, MySQL, Oracle, Data Modeling, Data Warehousing

Scripting & Automation – Python, Pandas, NumPy

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Frontend Technologies – JavaScript, React, Angular

Observability & Support – Splunk, Dynatrace, Jira, Confluence, Linux, Shell Scripting

Analytics & BI – Power BI, Tableau, DAX, Power Query, R

PROJECTS

Marketing Campaign Analytics Service (HCL Technologies)

- Developed a **Java Spring Boot** service to aggregate customer interaction data from multiple sources, enabling faster analysis of campaign performance.
- Engineered a **REST API** to expose campaign metrics, integrating with internal BI tools and supporting ad-hoc data requests from the marketing team.
- Designed and implemented database schemas in **PostgreSQL** for storing campaign-related events, ensuring data integrity and efficient querying for reporting.

Customer Engagement Feature Development (HCL Technologies)

- Built backend features in **Java** to support personalized customer communication workflows, enhancing user engagement with the financial services platform.
- Wrote **SQL** scripts for data validation and migration tasks during feature rollouts, ensuring seamless transition and data consistency across systems.
- Collaborated with business analysts to define requirements for customer-facing features, participating in UAT cycles and addressing post-implementation feedback.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
