+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained core platform features for an enterprise **Life Asia / Integral** system, focusing on **Java** backend services and integrations.
- Engineered and optimized **SQL** queries and stored procedures in **PL/SQL** for data migration tasks and complex reporting requirements on the platform.
- Collaborated with business analysts to gather requirements for new platform features, translating them into technical specifications for **Java** and **XML**-based scripting.
- Implemented system integrations between the **Life Asia / Integral** platform and external core banking systems using REST APIs and web services.
- Resolved production issues independently, diagnosing and debugging complex bugs within the platform's **Java** components and database layer.
- Authored comprehensive technical documentation including specifications, change logs, and user guides for platform customizations and new feature rollouts.
- Containerized platform services using **Docker** and deployed them to an **AWS** environment, managing configurations via **Jenkins** pipelines.

SKILLS

Platform – Life Asia, Integral, product configuration, customization

Programming Languages – Java, SQL, PL/SQL, XML, scripting

Databases – PostgreSQL, MySQL, Oracle, data migration, reporting

Cloud & CI/CD – AWS, Docker, Jenkins, Git

Development Methodologies – Agile, Scrum, change management

Domain Knowledge – Life Insurance Business Processes, system integration

PROJECTS

Life Asia Platform Feature Development

- Developed new features for a **Life Asia** platform component, enhancing transaction processing capabilities using **Java** and adhering to strict coding standards.
- Integrated the platform with a partner payment gateway via REST APIs, enabling seamless data exchange and reducing manual reconciliation efforts by approximately **15%**.
- Wrote complex **SQL** queries to extract and transform data for regulatory reporting, ensuring data integrity and compliance with financial reporting standards.

Insurance Policy Management System Integration

- Built and maintained integrations between an enterprise insurance platform and a customer portal using **Java Spring Boot** RESTful services.
- Designed and implemented data synchronization logic to ensure consistent policy information across interconnected systems, improving data accuracy by an estimated **10%**.
- Collaborated with business stakeholders to define API contracts and ensure successful integration testing, facilitating a smoother user experience for policyholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
