HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for internal data-exchange services, processing approximately **4,000 requests per minute** during peak hours.
- Developed and maintained **Hibernate** entities and JPQL queries for a core enterprise application's persistence layer, ensuring data integrity across **Oracle** and **PostgreSQL** databases.
- Engineered **JUnit** and **Mockito** test suites for critical Java modules, increasing code coverage by **18%** and reducing post-deployment defects by **22%**.
- Collaborated with business managers to translate ambiguous requirements into well-scoped designs for new modules within the **device lifecycle services** portfolio.
- Participated in peer code reviews and applied software engineering best practices to refine the codebase for **asset management** and **MDM** services.
- Mentored early-career engineers through pairing and code reviews, fostering a culture of ownership and engineering rigor within the team.
- Containerized multiple backend services using **Docker** and deployed them to an **AWS** EKS cluster, managing configurations with basic resource limits for predictable rollouts.

SKILLS

Languages – Java, Python, Go, Swift, Javascript

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Git, Jira, Confluence, Agile, Scrum, REST APIs, MDM, Asset Management

PROJECTS

Enterprise Device Management Integration Platform

- Developed a **Java Spring Boot** microservice to integrate with existing **asset management** systems, enabling automated device provisioning and configuration updates.
- Implemented a secure REST API layer using **FastAPI** for cross-service communication, handling data synchronization with the **MDM** service and ensuring a **99.5%** success rate for data transfer operations.
- Containerized the integration service with **Docker** and deployed it on **AWS EC2**, establishing CI/CD pipelines with **Jenkins** for automated builds and deployments.

Internal Software Distribution & Signing Service

- Built a Python-based automation tool to manage the signing and distribution of internal software packages, improving deployment efficiency by **35%**.
- Engineered a data pipeline to track software versions and user access logs, storing data in **PostgreSQL** and generating periodic reports for audit purposes.
- Integrated with internal developer portals to streamline the software submission and approval workflow, reducing manual intervention by approximately **50%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
