PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the **production support** and **incident response** for enterprise financial-services applications, addressing P1/P2 issues and ensuring SLA adherence across a portfolio of 10+ systems.
- Developed **Python scripts** to automate data extraction and aggregation for scheduled operational reports, reducing manual processing time by approximately **15 hours per week**.
- Constructed and optimized **SQL queries** across PostgreSQL and Oracle databases for data validation and ad-hoc analysis, supporting cross-system integration efforts for ERP modules.
- Designed and implemented **Java Spring Boot REST APIs** to facilitate data exchange between interconnected enterprise business systems, improving inter-service communication efficiency.
- Maintained performance data and **risk metrics** within internal portfolio management systems, contributing to the proactive monitoring of over 200 ABF transactions.
- Prepared detailed quarterly portfolio reviews and participated in **Investment Committee presentations**, synthesizing complex financial data into actionable insights.
- Executed **scenario and sensitivity analyses** on public and private ABF transactions, providing critical inputs for trade and repositioning recommendations.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

BI & Analytics Tools – Power BI, Tableau, DAX, Power Query

Financial Concepts – Structured Finance, Credit Risk, Transaction Modelling, Financial Modelling, Valuation, Risk Metrics, Portfolio Management

Enterprise Systems – ERP Integration, REST APIs, Change Management

PROJECTS

Payments Operations Dashboard Enhancement (HCL Technologies)

- Developed new Java Spring Boot microservices to ingest and process real-time transaction data streams, enhancing the **payments operations dashboard** for a financial-services client.
- Implemented robust **error handling and alerting mechanisms** within the transaction monitoring workflows, reducing critical alerts by **18%** through proactive issue identification.
- Collaborated with business analysts to gather requirements for new operational reporting features, ensuring alignment with client needs for **transaction reconciliation** and audit trails.

Portfolio Analytics Dashboard (MSc Data Analytics)

- Designed and built an interactive **Power BI dashboard** to visualize key performance indicators and risk metrics for a simulated investment portfolio, enabling data-driven decision-making for stakeholders.
- Developed complex **DAX measures** and performed data modelling using Power Query to aggregate and transform data from multiple sources, ensuring data integrity for analytical reporting.
- Presented findings and dashboard functionality to academic and industry professionals, demonstrating the application of **business intelligence** principles in a finance context.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
