PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland

Jul 2026 – Present

- Review and action user-generated content and account reports against a large-scale online platform's **community standards** and policies.
- Investigate escalated abuse cases, including harassment, hate speech, scams, and graphic content, ensuring timely resolution.
- Document **policy enforcement** decisions with precision and adherence to established guidelines.
- Identify and flag emerging abuse trends through meticulous content review and **risk assessment**.

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed Java Spring Boot REST APIs, ensuring accurate data validation and audit trail logging for financial transactions.
- Implemented Python scripts for data pipelines and reporting, supporting rule-based anomaly detection in transaction flows.
- Managed SQL databases (PostgreSQL, MySQL) for data integrity checks and ad-hoc analysis of operational data.
- Responded to P1/P2 incidents for enterprise applications, managing strict SLAs and coordinating resolution efforts.
- Monitored production systems using Splunk and CloudWatch, identifying and triaging operational alerts for critical issues.
- Handled production support for a payments operations dashboard, tracking transaction flows and operational alerting.
- Collaborated with cross-functional teams on requirements, UAT, and post-implementation triage for system enhancements.

SKILLS

People Analytics & Reporting – Reporting, analytics, business intelligence, data analysis, employee systems, workforce data, worker history, trended data, organizational data, compensation, talent, HR operations reporting, scalable reporting solutions, data governance, reporting controls, security, downstream data impacts.

Technical Skills – MS Excel (Advanced), Python, SQL, Java, Spring Boot, REST APIs, Power BI, Tableau, R, Pandas, NumPy, Scikit-learn, Splunk, CloudWatch, Dynatrace.

Process Expertise – Requirements gathering, translating business questions into reporting solutions, analyzing data, identifying trends, validating results, improving decision-making, operational effectiveness, reporting modernization, self-service capabilities, reducing manual processes, cross-system integrations, change-control management, incident management, SLA management, audit trails, GDPR awareness.

Trust & Safety Competencies – Community standards, policy enforcement, content review, escalations, risk assessment, inauthentic behaviour, hate speech, harassment, scams, graphic content, quality audit, calibration, accuracy, productivity targets.

PROJECTS

Customer Churn Prediction (MSc Data Analytics)

- Developed predictive models using Python (pandas, scikit-learn) to identify at-risk customers based on usage patterns.
- Created Power BI dashboards to visualize churn indicators and model performance metrics for business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
