HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed new release pipeline capabilities for managing release configuration, metadata, and policy workflows using **Python**.
- Contributed to automation tooling for deploying environments and reporting results, integrating with **Jenkins** for CI/CD.
- Enhanced automation and configuration supporting secure delivery of container images and software content, with a focus on **container image release workflows**.
- Investigated, reproduced, and documented bugs in release processes, collaborating with development and QE teams to identify root causes and solutions.
- Provided clear and timely status updates on release engineering tasks, ensuring alignment with Agile sprint goals and project timelines.
- Worked effectively in a fast-paced, Agile environment, collaborating with cross-functional teams to deliver improvements to release automation.
- Containerized applications and release tooling using **Docker**, deploying to development environments on **AWS EC2**.

SKILLS

Languages – Python, Java, SQL, Shell Scripting

Cloud & Containers – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes

CI/CD & Version Control – Jenkins, Git

Operating Systems – Linux

Tools & Methodologies – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace, PagerDuty

PROJECTS

CI/CD Pipeline Automation for Enterprise Applications

- Engineered automated build and deployment pipelines using **Jenkins** and **Python** scripting to streamline the release process for enterprise applications.
- Implemented integration tests within the CI/CD workflow to ensure code quality and stability before production deployment, reducing manual testing effort by approximately **40%**.
- Containerized application components using **Docker**, facilitating consistent deployments across development, staging, and production environments.

Automated Release Reporting and Monitoring

- Developed **Python** scripts to aggregate and parse logs from various sources, generating automated reports on release success rates and deployment metrics.
- Integrated monitoring tools like **Splunk** to track application health post-deployment, enabling faster incident detection and response.
- Configured alerts for critical deployment failures, reducing the average time to identify production issues by **3 hours**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
