PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented automation solutions using **Power Automate** and **Power Apps** to streamline financial reporting processes, reducing manual effort by **30%** for the EMEA Finance Shared Services team.
- Developed and maintained reusable templates and frameworks for automation delivery, standardizing documentation and ensuring consistent, high-quality deployment of digital solutions across the region.
- Facilitated ideation and prioritisation workshops with Finance SMEs and operational excellence leads, identifying and quantifying business value for **15+ automation opportunities** across EMEA Finance.
- Supported Finance stakeholders by evaluating end-to-end processes, assessing feasibility, and quantifying business value for potential automation initiatives, contributing to a robust pipeline of digital transformation projects.
- Actively participated in the EMEA Digital Innovation & Automation Centre of Excellence, contributing to capability assessments and helping design learning pathways for finance teams to strengthen automation maturity.
- Maintained accurate data across COE dashboards and trackers, reporting on pipeline health, delivered automations, and efficiency gains, providing leadership with clear, data-driven insights on digital transformation progress.
- Containerized automation solution components using **Docker** and deployed them to a managed cloud environment, ensuring scalable and reliable execution of automated workflows.

SKILLS

Automation Tools – Power Automate, Power Apps, Automation Anywhere, AI solutions

Finance & Reporting – Finance processes, ERP systems, Finance data flows, Reporting environments, Financial reporting

Core Skills – Digital innovation, Automation, Continuous improvement, Stakeholder engagement, Process assessment, Business value quantification, Knowledge management, Collaboration

Data & Analytics – Power BI, Data visualisation, Data analysis

Cloud & DevOps – Docker, Cloud deployment

PROJECTS

Finance Process Automation for EMEA Shared Services

- Developed a **Power Automate** solution to automate the reconciliation of intercompany transactions, reducing processing time by **40%** and improving accuracy.
- Built a custom **Power App** for Finance SMEs to submit and track automation requests, integrating with a SharePoint list for workflow management and stakeholder visibility.
- Documented the end-to-end automation solution, including process flows, technical specifications, and user guides, for inclusion in the COE repository and knowledge-sharing initiatives.

Digital Skills Capability Assessment and Pathway Development

- Assessed current digital skills across 50+ Finance team members in EMEA, identifying gaps and opportunities for automation capability building.
- Designed a tailored learning pathway focusing on **Power BI** and **Power Automate**, including curated resources and hands-on exercises.
- Collaborated with HR and Finance leadership to present the capability assessment findings and proposed learning pathways, advocating for increased investment in digital skills training.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
