HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed and modelled large datasets using **Python (pandas, NumPy)** and **SQL** to identify trends and support strategic decision-making for MSc projects.
- Developed interactive **Power BI** dashboards and reports, incorporating **DAX measures** and **Power Query** transformations to visualize key performance indicators for business stakeholders.
- Designed and implemented statistical analyses using **R/RStudio**, including regression and hypothesis testing, to derive insights from experimental data for academic research.
- Supported data analysis and statistical modelling activities to advance product development and manufacturing excellence, contributing to data-driven decision-making.
- Collaborated with cross-functional teams to gather requirements and translate them into actionable data analysis plans for various initiatives.
- Gained hands-on experience with experimental design principles and data interpretation within a global healthcare organization context.
- Containerized data analysis scripts using **Docker** for reproducible execution across different environments.

SKILLS

Data Analysis & Statistics – Statistics, Maths, Experimental Design, Data Modelling, Data Visualization, A/B Testing, Time-Series Analysis, Regression, Hypothesis Testing

BI Tools – Power BI, Tableau, DAX, Power Query

Programming & Scripting – Python, R, SQL, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS, Docker

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

MSc Data Analytics - Healthcare Outcome Prediction

- Developed statistical models using **R** to predict patient outcomes based on historical health records, achieving an accuracy of approximately **82%** on a held-out test set.
- Engineered feature sets from complex datasets using **Python (pandas)** and **SQL**, focusing on patient demographics, treatment history, and diagnostic markers.
- Created an interactive **Power BI** dashboard to visualize the model's predictions and key contributing factors for clinical research teams.

HCL - Financial Operations Data Enhancement

- Automated data extraction and transformation processes using **Python scripting** and **SQL** (PostgreSQL), reducing manual data preparation time by **40%** for a financial services dashboard.
- Validated data integrity and performed ad-hoc queries to support reconciliation workflows and operational reporting on transaction monitoring.
- Contributed to production support by analyzing logs in **Splunk** to identify and resolve data-related issues impacting the payments operations dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
