PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Performed **installation, repair, and troubleshooting** of software and hardware systems across factory production and handling equipment, ensuring minimal disruption to operations.
- Provided **technical support** for plant facilities including CCTV, evacuation systems, and time management systems, maintaining system availability.
- Executed and meticulously **recorded planned maintenance routines** and preventive maintenance schedules on critical IT and processing equipment.
- Analyzed and resolved **IT process issues** within the production environment, effectively troubleshooting software and hardware interactions with food processing machinery.
- Completed **basic hardware, printer, and workstation repairs**, diagnosing faults and implementing timely solutions to restore functionality for end-users.
- Managed **IT-related health and safety compliance** by observing all on-site and legislative regulations, ensuring a secure working environment.
- Contributed to **IT process awareness** initiatives by documenting common issues and solutions for plant operations teams, facilitating self-service problem resolution.

SKILLS

Hardware & Software Support – Installation, Repair, Troubleshooting, Workstation, Printer, Software Packages, Windows Software

IT Infrastructure – CCTV, Evacuation Systems, Time Management Systems, Network Connectivity

Maintenance & Compliance – Planned Maintenance, Preventive Maintenance, Health & Safety, Legislative Regulations, Food Safety

Operating Systems – Windows

Troubleshooting & Analysis – IT Process Awareness, Fault Diagnosis, Problem Solving

PROJECTS

Factory IT Systems Upgrade and Support

- Managed the **deployment of new workstation hardware** and updated operating system images across multiple factory floor locations, completing the rollout for **45 units** within a two-week period.
- Implemented a **centralized ticketing system** for IT support requests, reducing average ticket resolution time by **18%** through improved tracking and prioritization.
- Developed a **basic troubleshooting guide for common printer issues** used by operations staff, decreasing helpdesk escalations by approximately **15%** per month.

Automated Maintenance Logging System

- Designed and implemented a **Python-based system** to automate the logging of maintenance activities, integrating with existing data entry forms.
- Enabled **digital recording of all planned and preventive maintenance tasks**, ensuring compliance with audit requirements and improving data accuracy for over **200 equipment types**.
- Built a **simple web interface** for technicians to input maintenance records, accessible via the company intranet for easy access.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
