# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Delivered instructor-led technical training sessions on Google Distributed Cloud and related cloud infrastructure technologies to enterprise customers, adapting content for diverse technical audiences and experience levels.
- Designed and facilitated hands-on workshops, technical demonstrations, and practical labs focusing on cloud architecture, compute, storage, networking, and security for private, air-gapped, and disconnected environments.
- Developed and continuously improved technical training materials, including presentations, lab guides, and supporting documentation, ensuring clarity and engagement for complex cloud concepts.
- Provided direct technical guidance and answered in-depth learner questions during workshops and practical exercises, troubleshooting issues in real-time to maintain training momentum.
- Collaborated with client stakeholders and internal technical teams to identify specific skills gaps and define tailored training requirements for distributed cloud deployments.
- Managed training delivery schedules and activities independently, ensuring successful execution and alignment with client objectives in complex environments.
- Containerized Java Spring Boot applications for deployment on AWS EC2 instances, managing CI/CD pipelines using Jenkins for automated builds and deployments.

## SKILLS

**Cloud Platform** – Google Distributed Cloud, Google Cloud Platform (GCP), AWS (EC2, S3, Lambda, CloudWatch), Private Cloud, Air-Gapped Environments, Disconnected Environments, Cloud Architecture, Compute, Storage, Networking, Security

**Technical Training & Enablement** – Instructor-led Training, Workshops, Technical Demonstrations, Practical Labs, Learning Materials Development, Stakeholder Management, Skills Gap Analysis

**Infrastructure & Operations** – Kubernetes, Containerisation, Docker, Linux, Shell Scripting, CI/CD, Jenkins, Git, Incident Response, Production Support

**Programming & Scripting** – Java, Spring Boot, REST APIs, Python, SQL

**Data Analytics & BI** – Power BI, Tableau, DAX, Power Query, Data Modelling, ETL

## PROJECTS

### Distributed Cloud Training Program Development

- Designed a comprehensive training curriculum for Google Distributed Cloud, covering core concepts of cloud architecture, compute, storage, networking, and security for private and air-gapped environments.
- Developed interactive lab modules using Docker containers and simulated network configurations to provide hands-on experience with deploying and managing distributed cloud infrastructure.
- Created detailed technical documentation and presentation slides, translating complex concepts into accessible learning materials for enterprise technical teams.

### Java Spring Boot Microservice for Cloud Deployment

- Engineered a **Java Spring Boot** microservice to manage configuration data for distributed cloud nodes, including request validation and robust error handling.
- Implemented RESTful APIs for seamless integration with cloud management platforms and containerized the application using **Docker** for deployment on **AWS EC2**.
- Configured **Jenkins** pipelines to automate the build, test, and deployment process, reducing deployment time for configuration updates by **40%**.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
