PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided **technical customer support** for a complex advertising product, investigating and prioritizing issues to determine root causes.
- Resolved advertising product confusion and bugs by analyzing user issues, formulating solutions, and communicating technical resolutions to the sales team.
- Acted as the primary point of contact for advertising issues, owning tasks end-to-end until escalation to specialist teams was required for deeper debugging.
- Developed comprehensive knowledge of a sophisticated product group, enabling rapid assessment and analysis of technical challenges.
- Facilitated a high-end customer experience by delivering clear and concise technical support and workarounds for advertising-related problems.
- Collaborated closely with the **product support group** specialists to troubleshoot and resolve complex advertising bugs and product confusion.
- Mentored junior team members on product support areas and best practices for issue resolution.

PROJECTS

Technical Support for Enterprise Advertising Platform

- Provided direct technical assistance to enterprise customers experiencing issues with an advertising platform, troubleshooting bugs and product confusion.
- Investigated and documented complex advertising issues, escalating findings with detailed analysis to engineering teams for deeper debugging and resolution.
- Developed and maintained internal documentation on common advertising issues and their resolutions, enabling faster response times for the support team.

Customer Onboarding and Issue Resolution Workflow

- Designed an end-to-end workflow for handling customer-reported advertising issues, from initial contact and prioritization to resolution and follow-up.
- Collaborated with sales and product specialists to define clear communication channels for technical issue updates and workarounds.
- Trained new support agents on the established issue resolution process and product-specific troubleshooting steps.
