PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and built secure, governed AI agents using **Copilot Studio**, integrating topics, instructions, and knowledge sources into client workflows.
- Developed reusable prompts, actions, and components for AI agents, implementing **human-in-the-loop** controls to ensure user trust and oversight.
- Integrated AI agents with enterprise systems via **Power Platform connectors**, **REST APIs**, and custom integrations, enabling seamless data exchange.
- Implemented **authentication** and **responsible AI guardrails** for AI agents, meeting strict governance and security requirements from inception.
- Configured **Dataverse** tables and relationships to support AI agent data persistence and retrieval, ensuring data integrity and accessibility.
- Managed the end-to-end lifecycle of AI agents, including development, testing for accuracy and performance, and deployment within client environments.
- Containerized AI agent services using **Docker** and deployed them to a managed cloud environment, ensuring scalability and efficient resource utilization.

SKILLS

AI & Copilot Studio – Copilot Studio, AI agents, topics, instructions, knowledge sources, actions, triggers, agent flows, prompt design, retrieval-grounded solutions, agent orchestration

Microsoft Power Platform – Power Automate, Dataverse, Power Platform connectors, solution-aware ALM

Integration & APIs – REST APIs, custom connectors

Cloud & DevOps – Azure services, CI/CD, release management, ALM, governance, security roles, environment strategy

Core Technologies – Generative AI, Microsoft Graph, model context protocols, Application Insights

PROJECTS

Customer AI Agent Implementation (Accenture)

- Built and configured a **Copilot Studio** agent for a financial services client to automate customer inquiry responses, integrating with their internal knowledge base.
- Developed custom **Power Automate** flows to orchestrate agent actions, pulling data from **Dataverse** and external APIs to provide personalized support.
- Conducted rigorous testing of the AI agent, focusing on accuracy, safety, and performance benchmarks, prior to UAT with client stakeholders.

Intelligent Document Processing Automation (HCL)

- Developed Python scripts to automate the extraction of key information from enterprise documents using OCR and pattern matching, improving data capture efficiency.
- Integrated the document processing pipeline with a **REST API** endpoint for triggering and receiving processed data, supporting downstream ERP system updates.
- Managed the deployment of the automation scripts within a Linux environment using **Docker** containers, ensuring consistent execution across development and staging.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
