PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Delivered instructor-led technical training sessions on cloud infrastructure concepts to diverse enterprise technical teams, focusing on distributed cloud solutions.
- Developed and maintained comprehensive technical training materials, including hands-on lab guides and supporting documentation, for private and air-gapped cloud environments.
- Facilitated technical workshops and practical demonstrations, translating complex cloud architecture and operational concepts into clear, accessible learning modules for customer teams.
- Provided direct technical guidance and responded to learner inquiries during training sessions and practical exercises, adapting explanations to audience technical expertise.
- Managed training activities autonomously, coordinating delivery schedules and supporting small workstreams to ensure effective learning outcomes for client engagements.
- Collaborated with internal stakeholders and client management to identify specific training needs and deliver tailored learning solutions for distributed cloud adoption.
- Maintained up-to-date knowledge of Google Distributed Cloud capabilities and relevant cloud infrastructure technologies, including compute, storage, networking, and security fundamentals.

SKILLS

Cloud Platform – Google Distributed Cloud, Private Cloud, Air-gapped Environments, Disconnected Environments, Cloud Infrastructure, Compute, Storage, Networking, Security, Cloud Architecture

Training & Facilitation – Instructor-Led Training, Technical Training Delivery, Workshop Facilitation, Hands-on Labs, Technical Demonstrations, Learning Materials Development, Audience Tailoring, Technical Guidance

Cloud Native – Containerisation, Kubernetes, Cloud-Native Infrastructure

Project Management – Activity Management, Schedule Coordination, Workstream Support, Autonomous Work

Stakeholder Management – Client Collaboration, Internal Team Collaboration, Management Communication, Training Needs Identification

PROJECTS

Distributed Cloud Infrastructure Training Program

- Designed a multi-module training program covering core concepts of distributed cloud infrastructure, including compute, storage, and networking principles, tailored for enterprise IT professionals.
- Developed interactive lab exercises simulating deployment and operational tasks within a private cloud environment, enabling hands-on practice for learners.
- Created detailed facilitator guides and participant workbooks that mapped directly to the curriculum, ensuring consistent delivery and comprehension across multiple training sessions.

Secure Environment Cloud Operations Workshop

- Led a 2-day workshop focused on operating cloud infrastructure within highly secure, air-gapped environments, addressing unique challenges and best practices for restricted networks.
- Demonstrated common troubleshooting techniques for containerized applications (Kubernetes) and associated cloud-native infrastructure in offline environments.
- Facilitated a Q&A; session with participants to address specific operational challenges and knowledge gaps related to disconnected cloud deployments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
